

# STRIKE ORDER SENT TO 6 SHOP CRAFTS

## BOARD FOR WEST END BRIDGE

### Heinemann Says "Joker" Reposes In State Aid Law

County Board Members, Refused Permission to Vote, Sign Round Robin

WORDY BATTLE IS RESULT

District Attorney Declares Appleton Will Be Sorry if It Accepts Aid

A majority of the members of the county board is against the proposed Lake-st viaduct and prefers a bridge on the west end of Appleton. If a bridge is to be built with county and state aid. This is contrary to the prediction of Chairman D. J. Ryan at the last bridge hearing here that not a single rural member of the board would be in favor of the Cherry-st. project.

This was learned after Chairman Ryan refused to entertain a motion that it was the sense of the meeting that the board was opposed to the Lake-st. project. Chairman George F. Fiedler of the county-state road and bridge committee asked to introduce a resolution to that effect, which brought Supervisor John Tracy of Appleton to his feet in protest, maintaining that the board had no jurisdiction in the matter.

#### PERMISSION REFUSED

The point of order was sustained by the chair. Several members objected on the ground that inasmuch as the county would be asked to pay one-third of the cost of construction, the board was vitally interested. Chairman Ryan overruled the objection and refused to permit Supervisor Fiedler to present the resolution. Mr. Fiedler then threatened to elevate a round robin among the members. His reason for introducing the resolution, he said, was that the chairman was reported to have asserted that none of the rural members would vote for the Cherry-st. bridge.

Immediately after the meeting, while the members were hurrying home, Mr. Fiedler circulated the petition and managed to secure 23 signatures. There are 41 members on the board. Very few rural members were present, and the petition was turned down. It was said. Those who could not be reached are yet to be approached. The resolution will be sent to the state highway commission. It reads as follows:

"We the undersigned members of the Outagamie co. board, hereby express our preference for the west end location—either Cherry or State-st.—for the proposed viaduct across the Fox river in the city of Appleton for the reason that a viaduct at that location will cost less money; will tend to relieve the congestion from the lower, or so-called west of Lake-st location, and will serve the public fully as well, if not better, than the Lake-st. location.

#### BURDEN TO CITY

The situation got into another track, when Mr. Heinemann, district attorney with Mr. Fiedler, was clamoring for the floor, said that it was useless to be excited about the Lake-st. bridge, as it probably never would be built. He described the project as a "joker" nesting in the law that will be a continued burden to Appleton if it is once committed to it."

Quoting from the statutes, subsection 1321 a, he read: "when any municipality or municipalities have constructed a bridge under this section, the property in such municipality shall thereafter be subject to taxation by the county for the construction and repair of bridges within such county under section 1319 of the statute."

Section 1319, subsection 8, reads: "Cities maintaining their own bridges are not assessed for or are they required to levy taxes to pay the cost of construction or repair of bridges outside their own limits."

"Applying this to the local situation," Mr. Heinemann said, "we shall find that should Appleton accept county and state money it is not getting a gift, but from that time on it will tax its property holders for every bridge to be built in the county. In time this will amount to more than is now to be contributed by the county and state."

"When the people of Appleton know this they won't bother the state or county for aid, but will build the Cherry-st. bridge for \$300,000 at their own expense."

### PLANS IN COAL STRIKE PARLEY ARE MATURING

Davis Announces That Operators Have Accepted Invitation to Conference

Washington — Secretary of Labor Davis announced Thursday that bituminous and anthracite coal operators had accepted the invitation, extended Wednesday night by President Harding to meet at the white house Saturday with miners officials to devise methods upon which negotiations for the settlement of the coal strike can be initiated.

Secretary Davis said he was unable to say whether the president or another would open the conference. It is probable Secretary Davis and Hoover will then represent the government and there was also a possibility that a department of justice representative might be included. It is unlikely that the public will be admitted to the gathering and the total number of conferees is likely to be under 40.

Secretary Hoover's view is said to be that two operators from each of the eight chief geographical districts be named.

#### LEWIS IS ELATED

Mr. Lewis and his supporters privately expressed elation over the government's demonstrated intention to intervene for a settlement. The union spokesmen are emphatic in declarations that they intend to insist first upon the resumption of coal mining under the war time wage scale and second to demand the usual semi-annual wage agreement in the bituminous field. The anthracite discussions hinge entirely on the wage matter, but the bituminous controversy has the question of district vs. national settlement as a chief issue.

### CLEAR CHICAGO MAN OF MANSLAUGHTER

Kenosha—Norman Weiss, wealthy Chicagoan, was freed of manslaughter charges in connection with the death of Deputy Sheriff Jacob Kuel, when the case was dismissed by Judge Slater in the municipal court late Wednesday afternoon after a six hour preliminary hearing. Weiss was owner of the automobile which turned turtle resulting in Kuel's death.

Mrs. Mary Robbins, former Pollies house, also of Chicago, and the driver of the death car is out on bonds on a manslaughter charge. Her hearing was continued until July 12. Efforts of the prosecution to show that the occupants of the car had been drinking were not substantiated by witnesses.

### LAKE FERRY MEN MEET WORKERS IN WAGE PARLEY

Detroit, Mich.—Representatives of three railroads operating car ferries on the Great Lakes, met here Thursday with representatives of the Lake Sailors, Marine Firemen, Oilers, Water Tenders and Coal Passers, and the Marine Cooks and Stewards unions, to discuss a wage adjustment for ferry employees who assert their wages have been cut from \$130 monthly to \$55 since 1921.

The roads represented were the Pere Marquette, Wabash and Grand Trunk.

While no definite statement was forthcoming, it was indicated the employees would seek a wage scale of \$100 monthly.

SENATE INCREASE MILK DUTY OF HOUSE BILL

Washington—A duty of 2 1/2 cents a gallon on milk as compared with the 1 cent rate in the house bill was approved by the senate 43 to 18 after a two hours fight.

### SMUGGLING OF BOOZE IS BIG U. S. PROBLEM

Shipping Board Has Promised Its Cooperation in Stopping Liquor Traffic

SHIP SEARCH INEFFECTIVE Bringing of Narcotics Into Country is Also Difficult of Prevention

BY DAVID LAWRENCE  
Copyright, 1922, by Post Pub. Co.

Washington—The United States Shipping Board has promised its cooperation in the campaign of the prohibition forces of the government to prevent the smuggling of liquor from foreign countries. The regulations issued by the treasury department permit the sale outside the three mile limit of liquor which is a regular part of the ships stores but they make it unlawful for crews or passengers to carry intoxicants ashore.

The problem of smuggling on the part of crews, however, is one which rivals in its enforcement difficulties the stoppage of liquor traffic on land. Unquestionably the crews of American and foreign vessels are plying a healthy trade in foreign liquors. Smuggling on an extensive scale has been going on ever since the federal amendment went into effect. How can it be prevented? The task is almost hopeless.

#### SEARCH IS DIFFICULT

Though the federal government hasn't enough agents to search vessels or their crews effectively. It takes a long time to make a search of a modern merchant vessel, and by the time agents would finish one part of a ship it would be a comparatively easy matter for crews to transfer their liquor to another part of the same vessel. If agents are stationed on the docks, the crew can put out small boats and land at other points ashore. In the case of American ships, the captains might be penalized if negligence in preventing smuggling is proved—this might easily be added to the laws but this would not touch foreign skipper who could hardly be punished for something their crews did in their own waters abroad when the act of smuggling began.

#### NARCOTICS BROUGHT IN

An idea of the difficulties of catching a smuggler can be obtained by the experience of the shipping board in stopping the traffic in narcotics. Nobody in the government no matter what his views may be on liquor questions can be suspected of a desire to let drugs come into the United States especially from the Orient. Yet the government has had its hands full in keeping drugs out of the United States through a shipping board vessel. The package had been carefully concealed between the electric switches and the chief electrician was arrested.

#### TRAFFIC THROUGH CANADA

Until congress changes existing law American vessels will continue to sell liquor outside the three-mile limit but the prevalent opinion is that legislation will be passed soon prohibiting this. As for smuggling nobody has yet devised a way successfully to prevent smuggling except by appointing large sums of money for special agents to search ships and their crews and passengers. Even if vessels touching American ports are prevented from bringing liquor into this country, the smuggling by way of ships touching Canadian ports and then overland across the border will continue until more agents are employed to police the northern border. Prohibition has its virtues no doubt but few of its advocates in the government will concede that it has been a welcome problem in the matter of enforcement or that effective ways have yet been discovered to prevent "bootlegging" which has for its many sources of supply the liquor manufactured abroad and smuggled into the United States.

### DRY AGENTS SEIZE TRUCK WITH BOOZE

Milwaukee—A truck containing 50 gallons of colored alcohol and 18 cases of aged Moselle wine, valued at \$500 a case, was seized Wednesday night by state and federal prohibition agents at Seventeenth and Cherry streets. It was announced Thursday. The seizure followed a raid on the home of Charles Kirch, 1504 Walnut street to which the truck was going at the time it was seized, according to the agents. The truck, worth about \$6,000 is being held.

### JAP PRIVY COUNCIL PASSES NAVAL PACT

By Associated Press  
Tokio The privy council passed the naval treaty adopted at the Washington arms conference and submitted it Thursday to the Prince Regent for ratification.

The council's approval included the provision against poison gas and the clause restricting submarines. Viscount Ito, reporting for the council's investigating committee said the committee found the ratio ships apportioned to Japan disadvantageous to the empire and requested the government to use greater care in the future.

The committee of the Privy Council, however, found that the Japanese delegates at Washington were not at fault in failing to make better terms. From a spirit of respect for the Washington conference in its desire to maintain the world peace, the committee recommended ratification without amendment.

### O'Connor's Rebels Hold Out Against Irish Troops

Harding To See Special Movie On Washington

Washington—A private showing of a motion picture film illustrating scenes around the ancestral home in England of George Washington and an alleged representation of his great-grandfather, was given to President Harding on July 10 under the auspices of the American branch of the Sulgrave Institution.

### PUBLIC SERVICES SUFFER AS RESULT OF COAL STRIKES

Utility Companies Might Suspend Operations Temporarily in Some Cities

By Associated Press  
Milwaukee—While the general public does not consider the coal strike situation seriously, now when the sun is heating up their homes, the warning being issued by public utility companies indicate that the public nevertheless is being directly affected by the serious conditions facing the public utilities.

"The utility companies supply nearly all of the people in the state with light, heat, power, transportation and telephone services, and when the daily flow of those necessary services is menaced, the welfare of the public is menaced," said J. P. Pulliam, president of the Wisconsin Utilities association. "Anything that affects the utilities affects the public. The striking coal miners know this and they realize that the public will be hit first through their utility service."

"Many companies reduced their rates voluntarily during the past six months in the expectation that coal prices and freight rates would be lowered. The railroad commission ordered many companies to reduce their rates with the same expectation. Instead coal prices have gone up and freight rates will only come down 10 per cent after July 1.

### TWO POWER CONCERNS OF STATE COMBINE

Madison—The Wisconsin Power, Light and Heat company was Thursday authorized to purchase the common stock of the Eastern Wisconsin Electric company by a railroad commission order. Purchase will be effected by the issuance of \$500,000 preferred stock to take over \$700,000 common stock.

The Eastern Wisconsin Electric company owns street railway and electric light systems in Oshkosh, Fond du Lac and Sheboygan and is one of the large utility corporations of the state. Its consolidation with the Wisconsin Power, Light and Heat company is the largest utility transaction within the state for some time, the commission reports.

### STATE CHEESE MUST COMPLY WITH LAWS

By Associated Press  
Madison — Cheesemakers of Wisconsin must comply with the state law establishing standards of moisture, the attorney general decided Thursday. His opinion has been accepted by the marketing department through Alvin C. Reis, its attorney. Compliance with the grading statute which establishes "Wisconsin fancy" and "Wisconsin grade 2" brands of cheese in no way relieves the cheesemakers from liability under the excess moisture law for dealing with cheese which contains more than the amount of moisture legally permitted. Mr. Reis said: "I conclude," he advised cheesemakers, "that the standards and regulations of the department of markets must be applied to all American cheese, regardless of whether that cheese is being marketed in conformity with the moisture law or in disregard of it."

### ENGINEERS AND FIREMEN WILL REMAIN ON JOB

Brotherhood of Engine and Firemen Receives Notice of Shopmen's Strike

UNION GETS INSTRUCTION Ordered Not To Take Over Work of Any Employees Who Might Walk Out

Cleveland, Ohio—Engineers, Firemen and trainmen members of the railroad brotherhood with headquarters in this city, will continue to perform their regular duties and will not take the places or do the work of any railroad employees on strike, in connection with the strike of the shop crafts called for Saturday morning, chiefs of these brotherhoods advised the members of their organizations Thursday.

W. S. Stone, president of the Brotherhood of Locomotive Engineers and William G. Lee, president of the firemen, issued instructions to this effect to all members of their organizations Thursday. In absence from Cleveland of W. S. Carter, president of the Locomotive Firemen and Engineers, officials at firemen's headquarters announced they had agreed with President Stone to send a joint statement of instruction to engineers and firemen.

Notice of the calling of the strike of shop craft employees was received Thursday morning by local brotherhood executives from R. M. Jewell at Chicago. Mr. Jewell's telegram concluded as follows:

"We are giving you this information believing that you should be fully and authoritatively advised, and further that you may give the moral support and such cooperation as your organization can legally and properly extend."

President Lee Thursday mailed a circular of instructions to secretaries of all lodges and officers of the general grievance committee throughout the country.

President Stone wired instructions to all local divisions and general chairmen of the engineers in the United States as follows:

"Official notice has been received that shop crafts will go on strike. Instruct all members as follows: "Continue to perform your usual duties, no more, no less. Under no circumstances will you take places or do work of men on legal strike. If any company insists or attempts to require you to do so, write this office for instructions."

#### 10 PER CENT RAILROAD RATE CUT FOR JULY 1

Washington—An interstate commerce commission Thursday gave all common carriers including electric lines and water carriers, in addition to the steam railroads, authority to make the 10 per cent rate reduction effective Saturday without publishing schedules more than one day in advance.

The special permission will make it possible for a large number of carriers to get the new rates into effect on July 1 although it has not been possible for all of them to prepare these schedules and give them customary publication after notice to shippers. The order was the last of a series which the commission had issued, suspending rules and regulations which might interfere with going into effect of the 10 per cent reduction.

### CHINESE BANDITS BURN JAPANESE CONSULATE

Tokio—Japan is preparing to file a protest to Peking against the burning by Chinese bandits of the Japanese sub-consulate near Chientao, a town in Manchuria just across the Korean border. Special dispatches from Seoul, Korea, report three Japanese killed at Chientao and the hospital and 30 houses burned.

### ENTIRE SCANDINAVIAN PAPER OUTPUT TO AMERICA

Stockholm—The entire Swedish, Finnish and Norwegian paper output to America, will be sold to America. Most of the big paper mills have signed an agreement to export through a projected American syndicate headed by one of the Canadian Export paper company.

### ENGINEERS AND FIREMEN WILL REMAIN ON JOB

Brotherhood of Engine and Firemen Receives Notice of Shopmen's Strike

UNION GETS INSTRUCTION Ordered Not To Take Over Work of Any Employees Who Might Walk Out

Cleveland, Ohio—Engineers, Firemen and trainmen members of the railroad brotherhood with headquarters in this city, will continue to perform their regular duties and will not take the places or do the work of any railroad employees on strike, in connection with the strike of the shop crafts called for Saturday morning, chiefs of these brotherhoods advised the members of their organizations Thursday.

W. S. Stone, president of the Brotherhood of Locomotive Engineers and William G. Lee, president of the firemen, issued instructions to this effect to all members of their organizations Thursday. In absence from Cleveland of W. S. Carter, president of the Locomotive Firemen and Engineers, officials at firemen's headquarters announced they had agreed with President Stone to send a joint statement of instruction to engineers and firemen.

Notice of the calling of the strike of shop craft employees was received Thursday morning by local brotherhood executives from R. M. Jewell at Chicago. Mr. Jewell's telegram concluded as follows:

"We are giving you this information believing that you should be fully and authoritatively advised, and further that you may give the moral support and such cooperation as your organization can legally and properly extend."

President Lee Thursday mailed a circular of instructions to secretaries of all lodges and officers of the general grievance committee throughout the country.

President Stone wired instructions to all local divisions and general chairmen of the engineers in the United States as follows:

"Official notice has been received that shop crafts will go on strike. Instruct all members as follows: "Continue to perform your usual duties, no more, no less. Under no circumstances will you take places or do work of men on legal strike. If any company insists or attempts to require you to do so, write this office for instructions."

Chicago—Strike orders signed by the six craft presidents of the railroad shopmen's organization, were sent out Wednesday to general chairmen, representing 400,000 men authorizing a strike at 10 a. m. July 1 "on all railroads and Pullman shops in the United States."

The impending walkout makes Saturday a momentous day in the railroad world. On that date the \$400,000,000 cut in freight rates ordered by the Interstate commerce commission becomes effective simultaneously with a slash of \$135,000,000 from the wages of railway workers ordered by the United States Railroad Board. The pay of the shop men was cut \$80,000,000.

Railroad officials anticipated news of further strike orders to maintenance of way employees upon completion of the canvass of their strike vote at Detroit.

In spite of the impending walkout from the shops and the tracks, rail officials declared transportation would continue to move, because train service employees who constitute the "Big Four" Brotherhoods, switchmen and telegraphers are not parties to controversies over wages and working rules.

The shommen's strike is in protest to the wage reductions, the abolishment of rules by the railroad labor board and the farming out of shop work to contractors. Maintenance of way men balloted solely on the wage reduction.

It was a coincidence that the Association of Railway Executives called a meeting here Wednesday, according to rail officials. The meeting, it was said, was called two weeks in advance of the ultimatum by R. M. Jewell, head of the shop unions, for a conference principally on contracts with the Railway Express company.

The strike situation however, made the meeting all the more important. Rejection of Jewell's ultimatum that the roads ignore the labor boards wage cut decisions and restore abolished rules governing working conditions was certain, it was said, rail officials declared that Jewell's conditions for averting a strike were "impossible."

#### MIGHT CALL CONFERENCE

On the other hand a conference between railroad executives and union leaders was declared possible, not so much in any hope of reaching an agreement but as a vehicle for carrying the disputes immediately to the labor board, which saved the nation from the throes of a rail strike last October. By the formality of the announcement that the roads and unions could reach no agreement, the labor board, it was pointed out, could take jurisdiction as it did in the threatened strike of the Big Four brotherhoods last fall.

#### ANOTHER POSSIBILITY

Another possibility was that the board could similarly assume jurisdiction over situations growing out of an actual strike on the grounds that the strike would interrupt commerce.

#### KLINE'S ORDER

The order was signed by J. W. Kline, president of the International Brotherhood of Blacksmiths, drop forgers and helmers. The order follows: "In compliance with the strike vote, all shop craft employees below the rank of general foremen are hereby granted sanction to suspend work 10 a. m. July 1 on all railroads and Pullman shops in the United States. Notify all outside points. Wire number responding and number remaining at work."

(Signed) "J. W. Kline."

DETROIT—Decision today to call a strike of the approximately 400,000 railroad maintenance of way men in the country probably will be made late Thursday, F. F. Grable, international president of the United Brotherhood Maintenance of Way Employees and Railway Shop Laborers announced.

#### EMPLOYEES QUIT

Chicago — Reports Thursday were that railroad maintenance of way men had quit in West Chicago, Ill., without waiting receipt of strike orders and leaving many crossings unguarded. Mayor F. J. McClellan of West Chicago, agent for the C. & N. W. railway has sworn in special police to guard the property of the company, it was reported.

At one point fifty maintenance of way men went out in a body, it was said, and many shopmen also are reported to have walked out.

Chicago police officials will confer with special railroad agents Saturday, Charles Fitzmorris, chief of police, announced today, to determine the policy the Chicago police force will maintain during the expected strike.

## 400,000 Workers

### Are Affected By Walk Out Edict

Cut of \$400,000,000 in Freight Rates and Wage Reductions Amounting to \$135,000,000 Will Become Effective Simultaneously

Chicago—Strike orders signed by the six craft presidents of the railroad shopmen's organization, were sent out Wednesday to general chairmen, representing 400,000 men authorizing a strike at 10 a. m. July 1 "on all railroads and Pullman shops in the United States."

The impending walkout makes Saturday a momentous day in the railroad world. On that date the \$400,000,000 cut in freight rates ordered by the Interstate commerce commission becomes effective simultaneously with a slash of \$135,000,000 from the wages of railway workers ordered by the United States Railroad Board. The pay of the shop men was cut \$80,000,000.

Railroad officials anticipated news of further strike orders to maintenance of way employees upon completion of the canvass of their strike vote at Detroit.

### UNION HEADS MUST APPEAR BEFORE BOARD

Investigation Into Threatened Traffic Interruption to Be Conducted

By Associated Press  
Chicago — The United States Railroad labor board Thursday cited the national officers of the six craft unions, the railway executives now meeting here, and the officers of four other railroad unions, to appear before the board Friday afternoon in an inquiry into "the threatened interruption of traffic."

In addition to the shopmen whose strike order already has been issued, the four other unions cited, now taking a strike vote, are the clerks, maintenance of way, stationary firemen and oilers and signalmen.

Thursday served formal notice on the railroad labor board that a strike call had been issued "on all railroad and Pullman operating department local lodges of the six shop crafts."

The meeting of the railway executives and heads of the unions was set for 2 o'clock by the labor board, when the formal notice of the strike call was received from the shop men announcing the date for the walkout as next Saturday at 10 a. m.

#### MORE

DETROIT—Decision today to call a strike of the approximately 400,000 railroad maintenance of way men in the country probably will be made late Thursday, F. F. Grable, international president of the United Brotherhood Maintenance of Way Employees and Railway Shop Laborers announced.

Chicago — Reports Thursday were that railroad maintenance of way men had quit in West Chicago, Ill., without waiting receipt of strike orders and leaving many crossings unguarded. Mayor F. J. McClellan of West Chicago, agent for the C. & N. W. railway has sworn in special police to guard the property of the company, it was reported.

Chicago police officials will confer with special railroad agents Saturday, Charles Fitzmorris, chief of police, announced today, to determine the policy the Chicago police force will maintain during the expected strike.

#### CHINESE LEADER REPORTED KILLED

Manila—Chen Chung Ming, whose recent coup drove from Canton Sun Yat Sen, president of the South China republic, has been assassinated, according to a cable dispatch received Thursday from Shanghai by Kongpo, a local Chinese daily identified with the adherents of Sun Yat Sen. Reuter's News Agency fails to confirm the report.

Young China, a Chinese language newspaper published here, announced Thursday it had received from Hong Kong a report that General Chen had been shot and wounded seriously at a meeting with leaders of his own troops ten miles from Canton.

DETROIT—Decision today to call a strike of the approximately 400,000 railroad maintenance of way men in the country probably will be made late Thursday, F. F. Grable, international president of the United Brotherhood Maintenance of Way Employees and Railway Shop Laborers announced.

# HOUSING HIGH SCHOOL PUPILS HUGE PROBLEM

Superintendent Morgan Presents Annual Report on Condition of Schools

The greatest problem confronting Appleton schools is that of housing, according to Miss Carrie E. Morgan, city superintendent of schools, who on Wednesday presented her annual report to the board of education. Accommodating 1,000 students in a high school building, usually built for 450 can be done only by operating in shifts and carrying on an overlapping program, she reported to the board.

"This will not be met with favor by either pupils or parents," she said, "but they will have to endure this arrangement until proper accommodations can be provided. The state survey committee recommended the junior high school system, two new buildings remodeling of the present high school. As it will take much time to get these changes inaugurated, we cannot hope for relief for two years, but we earnestly request the cooperation of every citizen to acquaint himself with the details of the whole situation. In the meantime we must all be patient and helpful, parents, pupils and teachers submitting gracefully to the situation."

**UNIFORM COURSES**  
No changes have been made in the course of study of last year, as a settlement is awaited on the school question. If junior high schools are established, a new course will have to be provided. Miss Morgan asked leave to correct the false impression that there is no uniform course of study in Appleton schools, there being no difference in the course except in domestic science and possible manual training. All basic textbooks are the same, the only difference being the matter of supplementary reading, which is chosen to fit the needs of the case. Some primary grades read as many as 15 books, others only 12. The reason is that reading is the main study of the first grade and serves as a key that unlocks the doors to all other subjects.

A corps of 121 teachers, exclusive of the vocational school, which had 13 in the day school and 27 in the evening school, were maintained last year, the superintendent reported. The local qualifications of the teachers are: 53 unlimited state certificates; 36 two-year state certificates; 11 first grade city certificates; 1 second grade certificate.

"This means that nearly two-thirds of the teaching force are teachers of experience," Miss Morgan said, "instead of being recent graduates. As a matter of fact, only eight were hired without experience, but many were teaching on two-year licenses. Appleton has maintained its salary schedule adopted two years ago. Cities which have begun to cut salaries have experienced a turnover which has worked havoc with the schools, some towns losing every teacher, according to reports received a few weeks ago."

**GAIN IN CHILDREN**  
The school census taken in Appleton July 1921 showed 5,533 young people between the ages of 14 and 20, which is a gain of 164 over the previous year. The total number of pupils enrolled in all public schools for the year ended June 2, 1922, was: Kindergarten 587, grades 2,660, high school 965, vocational day school 374, evening school 1,096, or a total of 5,683, a gain of 159 over 1921. The grades showed a gain of 53, high school a gain of 156 and the vocational school a loss of 50.

"The loss in attendance at the vocational school is undoubtedly due to the law requiring longer attendance, which has induced pupils to take up regular work at the high school rather than go to work and take part time work at the vocational school," Miss Morgan explained. "Although the law has many enemies, it is forcing many pupils to get a better education which will in the long run serve the best interests of the child. The said plans are being made to broaden the scope of work, giving more training in commercial work. Evening classes for those who cannot read or write English also are being planned."

The high school broke all records this year with a graduating class of 118, which was 22 more than any previous class graduated. The grades graduated 206, a gain of only 3 over last year. Yet all districts except the second graduated the largest classes in their history. Practically all of these pupils will attend high school next year, and these with a large number from parochial schools will bring the high school enrollment up to 1,000.

**ATTENDANCE IS GOOD**  
The average daily attendance for the city was 3,035, or 87 per cent of the net enrollment. The attendance according to districts was: First, 515.4; Second, 713.8; Third, 685.3; Fourth, 259.4; deaf school, 18.4; ungraded room, 22; high school 825.5. Though the compulsory school enrollment was nearly 100 per cent, attendance was below the standard. Irregular attendance reacts upon the whole school, Miss Morgan said. The teacher's time is taken up explaining back work to absent pupils and slack habits are formed by the habitual absentees.

The truant officer's report shows 124 less names than that of last year. He investigated 418 cases, the number of girls being somewhat greater than that of the boys.

The report of Miss Jane Barclay, school nurse, for the First and Second districts follows: 1,453 pupils inspected; 433 pupils found underweight; 161 with defective eyes, 36 of which were corrected; 75 subject to headaches; 285 with defective teeth and 117 corrected; 274 bad tonsils and 64 corrected; 133 mouth breathing; 461 home calls; 76 doctor's calls; 555

# FELTON ELECTED HEALTH OFFICER

Board of Health Meets For Re-organization—Merkel is Deputy

Dr. William C. Felton was elected city health commissioner by the Appleton board of health at its organization meeting Wednesday evening. The appointment is to take effect July 1, and the term of office is until May 1, 1923. There was some doubt among the members of the board as to whose terms had expired, and for that reason no appointments of board members was possible until the last meeting of the common council. Dr. Felton succeeds Dr. H. C. Ellis, who had previously announced his resignation. It was believed he was appointed for two years. Dr. Felton was elected city physician by the common council at its first meeting after the spring elections. The appointment of health officer can be made only by the board of health.

George Merkel succeeds himself as deputy health officer of Appleton. Dr. M. J. Sandborn was elected chairman and Alderman C. D. Thompson secretary of the board.

# ALDERMEN TO LOOK OVER PARK SITES

The mayor and aldermen, accompanied by Leonard Smith, city planning engineer, will make a tour to investigate proposed park sites late Thursday afternoon. There have been several petitions presented by citizens favoring purchase of parks in the Fourth and Sixth wards. These and other sites will be visited by the common council.

One of the parks offered the city is the so-called west park, or block 44, at the west end of the Fourth ward, situated between the Fox river and South River st. The property includes 10 to 12 acres, it is said. Other sites that were to be investigated are blocks 72 and 74, east of Taylor, in the Fourth ward, covering about 50 acres; a Sixth ward site, blocks 13 and 14 located between Drew and Morris streets north of Levee; the triangular lot between Mason st. and State st., and a site between Alder and Pierce streets.

Letters to parents 292 school talks given; 1,251 miscellaneous inspectors made; 120 pupils excluded on account of contagion.

**NEED ANOTHER NURSE**  
Miss Morgan suggests that it would be a great advantage to the children of the Third and Fourth districts if they too could have the services of a school nurse, as it helps to keep up the efficiency of the school by giving prompt attention to physical defects of children and is an aid in preventing the spread of contagious disease.

The school for the deaf at the Third ward school showed an enrollment of 27 for the year. Three teachers were employed, but no provision has been made for a third teacher next year due to the lack of available room. With the establishment of a school in Kaukauna there will be fewer pupils here next year.

The ungraded room, which deals with the exceptional children, is located in the Post building. The enrollment was 29 pupils and two teachers. The school specializes in manual training. It also is crowded for room. Pupils of the sixth and seventh grades were excused, at the parents' request, to attend the religious day school at the Y. M. C. A. or parochial schools and credit was given them for this work.

# BACHMAN AGAIN IS PRESIDENT OF TRADES COUNCIL

Unions Announce Delegates to State Federation Meeting in Oshkosh

Fred Bachman was reelected president of Appleton Trades and Labor council at its meeting in Trades and Labor hall Wednesday evening. The other officers are Fred Aylesworth, vice president; Michael Bleick, secretary; George Brock, financial secretary; N. C. Gatz, treasurer; Andrew Stroup, sentinel; Raymond Schmidt, trustee.

A number of unions also announced their delegates to the state convention of the Federation of Labor which opens at Oshkosh July 17. Some of the organizations had not yet elected their representatives for the meeting and will announce them at a later date. It is expected that more than 15 will go from Appleton.

The delegates announced are: Fred Bachman, trades and labor council; William Campshire, carpenters union; George Siefert, sheet metal workers; William Prink, boilers; Peter Beerling, plumbers; George J. Schneider, paper hangers; Charles Sample, pulp and sulphite workers.

Mr. Schneider, vice president of the International Brotherhood of Papermakers, gave a general report of the activities of the national convention of the Federation of Labor at Cincinnati, to which he was an ex-officio delegate.

# SUNSHINE KIDDIES PLEASE BIG CROWD

Appleton is in love with the Sunshine Kiddies. Persons who saw their performance at Fischer's Appleton theatre Wednesday could not say enough in praise of the program presented by the 12 happy, clever little lads and lassies.

Most of the admiration went to the little tots Rera and Snooks, the laugh producers, hardly are out of the kindergarten class but their love songs and love-making would put some older people out of the running. Snooks is a Scotchman clad in kilts was too good to describe.

Dolly Sunshine, hardly more than a baby, could sing cute rhymes and dance with ease and grace. Her song, "Ta Ta" and her rapid dance was a delight.

Chester Sunshine in his solo, "Mother" was perhaps the best of the older children. The loneliness of a baby for her departed mother was portrayed by two others on the stage while he sang.

The audience had its best laughs when Junior Sunshine, two years old, appeared in a silk hat, sang lustily and did his best to dance and how with the others, aided by little Dolly Sunshine who acted as his stage mother. Charming dances and comical singing and dancing by the 12 were well received. The children are to be here until Sunday.

# NAME ASSISTANT TO REV. T. SAUER

Frederick Brandt Will Take Up Work Here in August—Engage New Teacher

Frederick Brandt, a recent graduate of the Lutheran Theological seminary at Wauwatosa, Wis., has accepted the call to become assistant pastor at St. Paul Evangelical Lutheran church of Appleton. The call was extended several weeks ago.

Mr. Brandt has been given until the first Sunday in August before taking up his pastoral work as assistant to the Rev. T. J. Sauer. Contrary to the custom of ordaining a candidate in the church to which he has been called, his ordination will take place in his home congregation at Neillsville, Wis., at the request of his father, who is pastor of that church and will conduct the ceremony of ordination.

The school board of St. Paul church has also received the verbal acceptance of Miss Erna Gehm of Woodville, Wis., in answer to a call to teach in the parish school. She will teach the third and fourth grades, succeeding Miss Emily Bassow, resigned. She was formerly teacher in a Lutheran school at Two Rivers.

# ORDER HEARING ON REGULATING DAM

Debate Question of Restoring Flashboards at Hearing in Oshkosh

The question of whether the flashboards on the dam at Neenah which were destroyed when the ice went out in the spring are to be restored will be given a public hearing in the assembly room of the city hall at Oshkosh at 2:15, Wednesday, July 12, according to information sent out by F. S. Skinner of the United States Engineer office. Statements for and against the restoration of the boards should be presented in writing in quadruplicate so as to be included in the report of the department.

**MORE LOCAL FOLK THAN EVER BEFORE NOW TAKING TRUTONA**

Statements of Scores of Appleton People Have Caused Hundreds to Try Trutona and Eventually Adopt It as Permanent Household Remedy—Declared Unequalled for Relieving Nervousness, Headaches, Blood Disorders, Gastritis, Back and Side Pains, Rheumatism, Anaemia, Constipation and Like.

More local people than ever before are now taking Trutona! No doubt this is an astonishing statement to the many who will think of the remarkable sale which Trutona has enjoyed for the past two months, but it's true nevertheless. Trutona's extraordinary merit has enabled it to not only make new friends constantly, but to keep the old—people who have adopted this famous tonic as a permanent household remedy. They are the ones who quickly realized that a medicine which could so thoroughly relieve them of a specific stomach, liver, kidney, bowel or blood trouble, would be just the medicine to keep on hand for periodical use to keep the system in perfect condition at all times.

Read the enthusiastic and grateful statements appearing in the Post-Crescent daily! They are given by your friends and neighbors—residents of YOUR OWN HOME TOWN—and they prove, beyond all doubt, Trutona's fairly remarkable merit. And remember—Trutona, despite its remarkable efficiency, costs you less than many present-day preparations, being sold for one dollar per bottle; three bottles for \$2.75 and six bottles (complete treatment) for \$5.00. Hundreds of bottles of Trutona are sold weekly in Appleton at SCHLINTZ BROS. Drug Store; Neenah, MARSH BROS.; Berlin, M. & Z. Pharmacy and at all good druggists in surrounding towns. adv.

**A Spring Lubricator Built for all Makes of Cars and Trucks**  
Protects springs against mud, dust, dirt and rust. Keeps springs constantly lubricated. Uses about 8 to 10 pounds grease. Prevents squeaking. Needs no attention. Insures smooth spring action. Maintains maximum flexibility. Easily and quickly attached without removing or disturbing any part of car. Holds grease for a minimum of 2 years without renewal.

**Milhaupt Spring & Auto Co.**  
PHONE 442 702 APPLETON ST.

By means of the flashboards above the Neenah dam, the height of the water in Lake Winnebago is regulated with the assistance of sluice gates at the side of the dam. During the time of high water, considerable attention was drawn to the use of the flashboards by those who wanted the sluice gates opened in order to allow more water to run into the river from the lake than was already rushing over the dam. The government refused to open the gates on the grounds that if that additional volume of water were allowed to run into the river, all the government structures in the river would be washed out.

# NO INCREASE IN HIGH SCHOOL BUDGET FOR NEXT TERM

## PER CAPITA COST OF EDUCATION CUT ABOUT \$35 A YEAR

Board of Education Places \$95,000 in Tax Budget for High School

At the annual meeting of the board of education Wednesday afternoon the annual high school tax levy for the coming year was fixed at \$95,000, the same amount as last year. The total budget for the year 1922-1923 was \$103,112.50. The difference between the two amounts is covered by money from the state and from tuition of outside pupils.

The various amounts placed in the budget are given below:

Building and grounds, \$6,533.45; supplies \$3,300; salaries \$77,850; books and magazines \$884.05; light \$1,200; fuel \$3,500; janitor \$5,000; freight, drug, express, postage \$800; commutation \$100; laundry \$200; water \$500; insurance \$600; telephone and telegraph, \$125; taxes, \$20; interest \$500; maintenance of secretary of board office, \$1,200; miscellaneous, \$1,000.

**EDUCATION REPORTS**

Miss Carrie E. Morgan, city superintendent of schools and clerk of the board of education, submitted her annual report of the schools of the city and annual financial report of the high school, which was adopted. Among other reports submitted were those on teachers and text, janitors and supplies and buildings and grounds. The valuation of movable equipment of the high school is placed at \$62,755.82 according to the annual inventory submitted by the secretary of the board of education.

Mayor Henry Reuter was reelected chairman of the board and Miss Carrie E. Morgan was reelected secretary. W. H. Kreiss was selected as chairman of the committee on buildings and grounds to succeed George Packard. J. G. McNeil succeeds himself as treasurer officer. O. D. Harris was reelected high school engineer and E. M. Carley and Henry Pastan were reelected janitors.

**CUT PER CAPITA COST**

In summarizing the expense, enrollment and per capita cost of the high school Lee C. Rasey, principal, said the expense in the year 1920-1921 was \$104,807.20 as compared with \$95,084.16 in 1921-1922. The enrollment in 1920-1921 was 749, while in 1921-1922 it had increased to 905. The per capita cost was reduced from \$139.93 in 1920-1921 to \$105.66 in 1921-1922, a saving of \$34.27. On a basis of 905 students the word would mean a saving of \$31.57.55.

"This saving is largely accounted for," said Mr. Rasey, "by a reorganization of the teaching program. It has not been brought about by a reduction in salaries. In fact, salaries were increased during the past year. If we were to maintain the same number of students per teacher next year that was maintained during 1919-1920 we would need for a estimated enrollment of 1,000 students, 35 teachers. Instead we will have 35 teachers. There is represented in that reorganization a saving in this one item of about \$21,000.

**WANT BIGGER CLASSES**

"During the year 1919-1920 one half of the classes in the high school had an enrollment of less than 20 pupils. 30 classes had an enrollment of less than 15 pupils. The effort is being made in the high school at this time to have most classes maintain an enrollment of 24 pupils. This is not large.

"During 1919-1920 a part of the teachers had class instructions or study room supervision during six periods of the school day. The others, however, had only five. During this past year all teachers have had such work for six periods. This is the average amount of work done by teachers in the better high schools. These changes in numbers in classes and number of working periods have made it possible to reduce the budget for salaries as indicated.

**TEACHERS LIKE PLAN**

"The high school teachers have been very ready to work on this program. In fact, it is an advantage to the teacher inasmuch as it makes better salary possibilities. It has been possible to conduct the school on a lower per capita cost during this year than when such teachers as Miss Salisbury, Mr. Wells, Miss Rudd, Miss Carter, Miss Hahn, Miss Webster, Miss Givens, etc., were receiving \$700 or \$750 less than they now receive.

"There have been reductions here and there in overhead costs which have helped to bring about the present result. There has been a very careful supervision of purchases and a tightening up wherever efficiency permitted on expenditures."

**RECEIVE WEEKLY U. S. TRADE REVIEW**

"Commerce Reports", the weekly publication of the United States department of commerce containing reviews of conditions in all the important lines of business will be received regularly at the chamber of commerce office hereafter through the courtesy of Herbert Hoover, secretary of commerce.

Mr. Hoover has informed the chamber that this publication will be sent without charge to all commercial organizations on request, as a means of distributing the valuable trade information collected by the government bureau. Private concerns pay \$3 a year for this service.

The magazine will be on file here for the use of anybody who wishes to refer to it.

## County Board Votes \$39,000 For Repair Of Damaged Bridges

Storm and High Water Causes Enormous Losses in County—Towns Will Be Charged for Part of Repair Work.

Outagamie-co. board of supervisors, in special session Wednesday afternoon, appropriated \$39,000 for repair of county roads, bridges and culverts damaged by the recent floods and the high water last spring. That amount of money will be borrowed, or as much of it as will be found necessary, and levied against property of the county.

The biggest items in the program of repair are the Kantz bridge, on county highway J, known as the Town Line road, which will require two 40 foot spans and a fill 13 feet high at an estimated cost of \$12,000; the Foster bridge on highway E, known as the Little Chute-Freedom rd., requiring two 40 foot spans, a fill 10 feet high and 300 feet long, at an estimated cost of \$10,000.

A petition signed by 16 citizens of Deer Creek, 11 of Maple Creek and 14 of Liberty to build two 24 foot concrete bridges and the necessary fills on highway S, damaged by the Embarras river during the high water period, was referred to a special committee including John Tracy, Appleton, Charles Sievert, Osborn, and Michael Mack, Shiocton, which is to investigate and report at the November session of the board. The estimated cost is \$12,000. There was some talk on the advisability of discontinuing that road as a county highway. The towing of Deer Creek and Maple Creek had previously turned the project down.

**MANY BRIDGES DAMAGED**

The repair of a bridge at the sanatorium at Little Chute was referred to the committee on sanatorium with power to act. Work on this project was held up on the presumption that the board had made no previous appropriations for it.

Following is the county high bridges in need of repair to which towns have heretofore paid one half of the total costs:

Ryan bridge, 24 foot span, De Bruin bridge, 16 foot span, Kerkhoff bridge, 20 foot span, all three requiring a total of approximately 351 cubic yards at an estimated building cost of \$8,736.

A bridge on highway C, town of Freedom, is in need of approximately \$2,400 for repair. The Coffey bridge on highway F, Bear Creek-Lemmon rd., needs a 24 foot span of concrete at an estimated cost of \$3,200.

Another bridge on highway H, Oneida, crossing Duck Creek, requires a fill 10 feet high and 150 feet long at an estimated cost of \$350. The Mud Creek bridge on the Brickyard rd. needs to have a fill replaced at an estimated cost of \$300.

The construction and repair of bridges will be taken up at once and the matter of who shall pay the cost of construction and on which roads the towns shall pay a part of the costs will be investigated and charged accordingly.

**Circus Day Orderly**

No robberies were reported to the police department during the period when Gollmer brothers' circus was in Appleton. Excellent order seemed to prevail on the streets and at the grounds, and no complaints were made as to pickpockets or thieves operating.

## SPEEDER JAILED AFTER AUTO CRASH

Joseph VanSchindle Pays Fine After Colliding With Leonard Meyer's Car

Too much speed on College ave. with a resulting collision won for Joseph VanSchindle, Little Chute, a night in the city jail and a fine of \$13.20 when he appeared before Judge A. M. Spencer in municipal court Wednesday morning on a charge of driving his automobile in excess of 25 miles an hour.

VanSchindle was going west on the avenue about 9 o'clock Tuesday night and ran into the rear of an automobile driven by Leonard Meyer, 963 Bennett st., just as the latter turned off State st. Joseph Bayer, motorcycle officer, was on VanSchindle's trail and escorted him to jail.

Minor damage was done to both automobiles, but the occupants were unhurt.

## PASTORS TO AID AT SUMMER CAMP

Appleton Will Send Group of People to Green Lake Congregational Conference

Three Appleton pastors are to be in charge of class groups at the annual summer conference for Wisconsin Congregational young people at Green Lake July 10 to 16. They are Dr. John W. Wilson, district congregational superintendent, and Dr. H. E. Peabody and the Rev. C. Willard Cross of the First Congregational church. A number of Appleton young people will be in attendance.

The conference is a new venture in the Congregational denomination and provides camp meetings similar to those held annually by other churches. The location will be at Green Lake Bible Institute grounds, on the west shore of the lake. An assembly building, dormitories and cottages will house the people.

Development of the spiritual life, training for christian service and combining recreation with the best of fellowship are purposes of the camp. Any young person of high school age or over is eligible to attend.

There will be classes in the morning, taking up Biblical, missionary or church and Sunday school work subjects, recreation in the afternoon and special addresses in the evening.

**Free Recipes For Delicious Hot-Weather Desserts**

Can you make banana canoes, Turkish delight, fifteen-dollar pie, tulip dessert? Presumably you don't know what they are.

These are desserts made by combining oranges and lemons with other ingredients to make delightful dishes.

Science has recently demonstrated that raw foods must form part of the diet in order that the body may not be undernourished. The use of oranges and lemons is a pleasing and palatable way of insuring a balanced food supply for the body.

There are hundreds of attractive ways in which they may be used. Any of our readers may have entirely free, a booklet giving over 200 recipes for serving oranges and lemons attractively, by themselves and in combination with other foods. All that is necessary is to clip the coupon below, mail it, and enclose two cents in stamps for return postage.

Frederic J. Haskin, Director, The Appleton Post-Crescent Information Bureau, Washington, D. C.

I enclose herewith two cents in stamps for return postage on a free copy of the Orange and Lemon Book.

## VOECKS HONORED BY LUTHERANS AT SYNOD MEETING

Appleton Man is Reelected District Treasurer and Made Conference Delegate

Albert Voecks was reelected treasurer of the Northern district of the Evangelical Lutheran Synod of Wisconsin and Other States at the biennial conference at Weyauwega which closed Tuesday.

Mr. Voecks also was elected delegate of the district to the synodical conference of Wisconsin and Missouri synods, to be held in Cincinnati, Ohio, Aug. 16.

Most of the Appleton delegates returned Tuesday. They were the Rev. R. E. Zieseman and G. D. Ziegler of Mount Olive Evangelical Lutheran church, the Rev. T. J. Sauer and Louis Nieland of St. Paul church, and the Rev. Philip Froehke and William Rubbert of St. Matthew church. Fred Tetloff represented Freedom church as delegate.

More extensive use of the English language in Lutheran churches and schools will be one of the changes of policy growing out of the Weyauwega meetings. Several of the speakers placed marked emphasis on the necessity of this step, and there was a widespread sentiment for total or partial discontinuance of the use of other languages.

The name of the district was changed officially from northern to Manitowish district, and will be called by the latter name hereafter.

Weyauwega prepared adequately for entertainment of 200 or more delegates who attended and on Saturday afternoon conducted an automobile trip to Wisconsin Veterans Home and Chas. o-Lakes. About 1,500 people attended the fifth anniversary celebration of Emanuel Lutheran church of Weyauwega, Sunday.

## Is Uric Acid Making You Ill?

Have you wondered what is causing you to feel so weak and tired—so "blue" and nervous? It may be uric acid. You have probably eaten too much meat, which has filled your blood with uric acid, weakened your kidneys and caused that wearing backache, the headaches, dizziness and other bad feelings. Don't wait for serious trouble. Lighten your diet and use Doan's Kidney Pills. Thousands recommend them. Ask your neighbor!

**An Appleton Case**

Mrs. W. H. Kramer, 815 Hancock st., says: "I suffered from rheumatic pains and kidney trouble. At times, I was lame and had pains in all parts of my body. Headaches and dizzy spells left me unfit for work. I tried different remedies, but nothing did me good until I began using Doan's Kidney Pills. I improved rapidly and finally was better in every way."

## New York Men Hike Thru Here To Yellowstone

Charles Benhoff and Samuel O'Dell of New York arrived in Appleton Tuesday evening on their way to Yellowstone park. They are making the trip afoot and each carries 25 pounds of baggage which includes his tent. They make a practice of camping out and spent Tuesday night in Albia park. Each is clad in khaki and heavy walking shoes. It is a pleasure and sight seeing trip they claim, and they expect to reach their destination early in August. The travelers resumed their journey at 11 o'clock Wednesday morning.

## TWO APPLICATIONS FOR LICENSES ARE DENIED

Kaukauna—An adjourned meeting of the common council was held Wednesday evening in the council rooms for the purpose of granting license "A" permits to applicants. License to sell "soft" drinks were granted to all applicants with the exception of Henry VanAble and Joseph Derus. The council adjourned until July 5.

## THE DEBT OF THE STATE

Do you know that an association of small colleges in Wisconsin is taking thousands of high school graduates every year and returning them four years later trained men and women?

More than fifty per cent of the college students of Wisconsin are enrolled in the small colleges of this state. Year after year these schools are doing their work with an efficiency and vigor which demands definite approval of the citizens of Wisconsin.

Since 1846, when the first of these colleges was founded, a steadily increasing stream of capable, strong characters has been spreading all over the state and section. Today you are asked to support these schools, not only with your financial resources, but by sending to them the best young people of the state.

## HEARS ADDRESS ON HARBOR PROJECT

Corbett Represents Appleton at Meeting—No Deepening of Upper River Mentioned

Hugh G. Corbett, managing secretary of the chamber of commerce, represented that organization at a meeting of the Great Lakes Ocean Waterway association in Green Bay Tuesday evening, where Maj. F. S. Skinner, United States district engineer, was the speaker. A dinner was served at Bay Beach pavilion.

Maj. Skinner told of the proper means of developing the Green Bay-DePere harbor deepening project to the point where the government should be approached, and warned his audience to keep the issue alive if action is expected. He made no mention about development of the Fox river above DePere for purposes of increasing navigation.

## RUSSIA'S HOPE COINS

Russia is turning out of its mint a batch of silver rubles which are in reality hope coins. No visible amount of silver is small enough to represent the present value of the shipplaster ruble, which is now passed only in large rolls and is worth somewhere around fifteen-hundredths of a cent on the exchange market. The coinage of a few actual silver tokens for storage and use as security is chiefly significant in that it denotes an attempt to get back to a solid foundation. Some day the soviets hope to stop flooding fiat paper money into the market and redeem at some price what is out.

That day will come only when renewed development of Russian resources by a return of private ownership and repudiation of communism brings life and value to the immense dormant wealth and work power of the land of Lenin. On the back of the new coins is the exhortation "Proletariat of the world unite." Until the aim at world revolution and the attempt to uphold an impossible system thus presented in minted letters are surrendered the ruble will continue in storage. Conference at the Hague now under way might resuscitate soviet currency to a redeemable extent if the Russians would agree to the sound guarantees to private property demanded by the allies. Only the entrance of outside capital to move the wheels can turn the trick and the bolsheviks seem determined to hang to theories which make foreign investment impossible.

## GERMAN UNCERTAINTY

What a day may bring forth in Germany is again uncertain. Perhaps it would be more accurate to say is still uncertain, for ordinary governmental stability has not existed there in the last four years. The assassination of Dr. Walter Rathenau, minister of foreign affairs, reveals anew the doubtful tenure of the republic's present government. That it feels the direct apprehensions for the future is evident from its energetic action to defend itself against a possible monarchial revolt, its establishment of extraordinary courts for the trial of national-plotters and its proclamation of a state of emergency in Prussia. Well might Chancellor Wirth declare, addressing the nationalists, at the reichstag's memorial meeting: "Respected gentlemen, things cannot go on this way any longer."

Perhaps the Boersens Courier exaggerated when it declared that "whoever today attains governmental heights must be prepared to make his reckoning with heaven." But certainly he becomes a shining mark for desperate characters who are dissatisfied with the new order of affairs. That the junkers have never given up the hope of a restoration of some kind of monarchy is plainly evident from their persistent activity. Whether they were indirectly responsible for the assassination of Dr. Rathenau, or whether it was the independent work of madmen who had become crazed from brooding resentment, it is reasonable to assume that such a tragedy does the monarchist cause no harm, while it does work to severe injury on the established government.

The temper of the reichstag after the assassination shows the bitterness of the factional antagonism. Dr. Helfferich, who the day before had attacked Dr. Rathenau in a bitter speech, was almost mobbed. Cries of "murderer" and "assassin" came from the Communists and Socialists. No wonder "he appeared to be in a very depressed and somewhat fearful state." The Nationalist press naturally resents the suggestion of party responsibility for the tragedy, but, with other papers, pays tribute to the energy, ability and patriotism of Dr. Rathenau. Certainly he served Germany well in both

war and peace. The arrangement he made with M. Loucheur, of France, for German cooperation in the restoration of the French devastated regions, showed a genius for accommodation that has as yet been approached by no other German. The high standing that this gave him with the allies was considerably weakened by his unexpectedly concluding the Rapallo treaty while the Genoa conference was sitting. Nor did this action strengthen him at home, where widespread dissatisfaction was expressed in regard to the relations thus established with Russia. That Dr. Rathenau was quite fair in this matter the allies will probably never believe, and that he was quite wise will long be doubted by many Germans unless international developments differ from the present indications of their future. Because of his strength, his ability and his self-sacrificing patriotism his death leaves the German government in a weaker position than it was before. It will take wise and forceful administration to guide it to success along the ways of peace.

## THE PATENT OFFICE

In a recent issue of the Journal of the Patent Office society the chief clerk of the patent office, W. I. Wyman, makes a strong plea for a changed attitude of mind toward the work that office performs. He makes the important point that the profit the office shows is not the really important thing, but the place the office holds as a vital factor in the industrial progress of the country.

It is undoubtedly true that the patent office would never have been permitted to fall into such a deplorable condition had the public been fully acquainted with the disadvantage under which it was operating; it is equally certain that the campaign of education by which the public was informed more intimately of the exact character of the patent office duties has been responsible, more than any other single factor, for the emergency relief recently granted by a dilatory congress.

It would be a very great pity if the matter were permitted to rest there. The public, having learned that the patent office is yet another proof of the wisdom of the framers of the constitution, who provided for it, cannot afford to let the work remain half-done, and no one acquainted with the patent office can see more than temporary, though valuable, relief, in the measure recently enacted.

The two chief needs of the patent office are permanent ones. They are entire reorganization of the staff on a larger basis, with a readjustment of responsibilities, from the commissioner down, and a new, fireproof building of sufficient size to warehouse these tremendously valuable records of the country's inventive genius, as well as the records of patents in foreign lands.

The present building is a potential bonfire, perhaps the most ridiculous example of false economy a government not usually parsimonious in the matter of public buildings can show. The importance of the records demands safety, and the dignity of effort they represent demands a building of commensurate importance. And the vital character of the office in the life of this country merits the prompt and complete reorganization of the work to meet the unparalleled growth in its duties.

## REDS, WHITES, BLUES

This summer, at Camp Custer, hundreds of Michigan, Illinois and Wisconsin young men will be enrolled in three citizens military training courses from August 2nd to September 2nd.

The "red" course will be for military beginners between the ages of 17 and 25 who have had no training and want to obtain a practical field experience. The "whites" must be between 18 and 26 years old, must have had training equivalent to that of a graduate of the "red" course—that is, the equivalent of a good private's accomplishments—and will be taught to qualify for jobs as specialists or non-commissioned officers. The "blues" will range in age from 18 to 27, will be men with previous military experience as specialists or non-coms equal at least to that of a graduate of the "white" course, and will be trained for service as officers in the officers' reserve corps.

It stands to reason that the organized reserves trained by these camps will be the final resource of the nation in case of outside trouble. No question of "militarism" is concerned with them, and to all practical purposes the month at Custer—which is one of twenty-seven encampments throughout the country—will be a splendid vacation. Everybody will take his own towels, socks, B. V. D.'s, pajamas, razor, soap, musical instruments and

whatever parts of former uniforms he may possess. There will be plenty of fun. But the discipline and the training will be the real thing, and the young man who can spend his August at Custer will be assuring himself not only better health but the patriotic satisfaction of a place in the ranks of his nation's minute men.

## Health Talks

BY WILLIAM BRADY, M. D.

Noted Physician and Author  
Dr. Brady will answer all signed letters pertaining to health. Writers' names are never printed. Only inquiries of general interest are answered in this column, but all letters will be answered by mail if written in ink and a stamped, self-addressed envelope is enclosed. Requests for diagnosis or treatment of individual case cannot be considered. Address Dr. William Brady, in care of this paper.

## THE GLAND OLD MAN

That backneyed old bromide about the man being as old as his arteries is more epigrammatic than true. The man isn't old because his arteries are old, his arteries are old because the man is old. The gland is the old man's friend. The gland is the old man's enemy. The gland is the old man's ally. The gland is the old man's foe. The gland is the old man's friend. The gland is the old man's enemy. The gland is the old man's ally. The gland is the old man's foe.

Years and years before the shrewd Varanoff, if that is the name, came to America to teach the American surgeons the art of implanting or transplanting glands for the purpose of rejuvenation of senile men, that very thing had been successfully done by several American surgeons. Varanoff didn't make a great stir in the profession here, therefore. But he showed the American profession another art—how to get free advertising. The American press fell for it—oh, so easily! Columns and columns of the finest kind of advertising free gratis and even paid for by the boob papers. The by this time, well known Varanoff knew his business. All right, even if he didn't originate or discover anything worth mentioning.

Dr. Frank Lydston of Chicago was one of the American pioneers in gland implantation. Lydston's work was given to the medical profession—not to the newspapers—several years before Varanoff discovered the gullibility of the American press. Dr. Lydston had accomplished all and more than the well known Varanoff has ever accomplished, and without rousing any whistles or blowing any bells so far as I have ever heard. Modesty is fatal to a pioneer. I have learned that from experience in my own particular line—teaching health to the masses. But Lydston's work was given to the medical profession, not to the newspapers. The gullibility of the American press. Dr. Lydston had accomplished all and more than the well known Varanoff has ever accomplished, and without rousing any whistles or blowing any bells so far as I have ever heard. Modesty is fatal to a pioneer. I have learned that from experience in my own particular line—teaching health to the masses. But Lydston's work was given to the medical profession, not to the newspapers. The gullibility of the American press. ## RESIDES IN FAST GROWING REGION

**Lindsay Waters, Former Alderman, Is Impressed With Growth of Appleton**

Lindsay Waters, who was a member of the common council in 1907, has arrived in Appleton with Mrs. Waters from Kingsville, Texas, which Mr. Waters believes is one of the fastest growing rural communities in the country. Mr. Waters will spend about a week here, but Mrs. Waters will remain for a longer period to visit acquaintances.

A cotton mill has been built at Kingsville recently, Mr. Waters says, with the result that there is an immense acreage of that crop grown now as compared to a small production a few years ago. The county is patterning after Outagamie-co. in providing paved highways. There was no good road across the county a few years ago, but one excellent macadam highway has been completed and others are to be built.

Much progress has been made in dairying. Some of the best butter on sale in the south is produced at a large creamery at Kingsville, and in cellaneous herds of cattle had been used, but farmers have been induced to acquire large numbers of purebred Jersey and Holstein cows, with the result that dairying is an important industry now.

Mr. Waters was somewhat surprised at the number of changes that have taken place since he was here last, but was pleased to see the extent to which Appleton has grown. He was chairman of the fire and water commission of the council while alderman and entered an hour at the fire station Thursday morning inspecting the centralized and completely motorized fire department.

## PARTIES

Mrs. L. V. Benjamin and Mrs. Edward F. Hoffman entertained at an electrical shower Wednesday evening in honor of Miss Dorothy Meyers whose marriage to E. A. Smith will take place in the near future. Prizes were won by Mrs. George Carley, Mrs. Voster and Miss Bonita Laux. The guests included:

Mrs. Bray, Mrs. W. Schultz, Mrs. U. Werner, Mrs. C. Rickett, Mrs. J. Koehnke, Mrs. P. Jansen, Mrs. C. Smith, Mrs. Geo. Carley, Mrs. W. Miller, Mrs. J. Schwoebel, Mrs. W. Gust, Mrs. W. Trotter, Mrs. Voster, Mrs. Geo. Schwab, Mrs. H. L. Meyer, Miss Clara Schroeder, Miss Leone Braeger, Miss Helen Sterling, Miss Viona Rohm, Miss Bonita Laux, Miss Dorothy Meyer, E. A. Smith, E. Brockman, L. V. Benjamin, E. F. Hoffman.

There was a large attendance at the lawn social given by the Young Peoples Alliance of Emanuel Evangelical church Wednesday evening at the home of the Rev. H. A. Bernhardt, 696 Harris-st. Music was furnished by Polzin mandolin orchestra.

The Sunshine Kiddies, who are playing at Fischer's Appleton theatre, enjoyed a picnic Thursday morning at Waverly beach, tendered them by their tutor, Miss Teachman of Detroit, Mich. The children finished their schooling for the season this week. Arrangements were made by the boys of the troupe for the outing and the picnicers were conveyed to the beach in automobiles provided by Manager Holah of the theatre.

Mr. and Mrs. A. H. Wickesberg will entertain the office force of the Appleton Woolen mills at dinner at 6:30 Thursday evening. The party will take place at the Wickesberg cottage on Lake Winnebago.

A surprise party was given at the home of Mr. and Mrs. John Penske, 1049 Morrison-st. on Wednesday evening in honor of Mrs. Penske's birthday anniversary. Prizes at cards were won by Mrs. Richard Verwey and Matt Weyenberg. The guests included Mr. and Mrs. Richard Verwey, Mr. and Mrs. George Verwey, Mr. and Mrs. P. E. Hymers and daughters, Mr. and Mrs. John Voss, Mr. and Mrs. John Voss, Mr. and Mrs. Elmer Koss, Mr. and Mrs. Matt Weyenberg and William Buskile.

Masters George and Carl Baldwin entertained a group of friends on Tuesday at their cottage at Berry lake. The trip from Appleton was made early in the morning in the George Baldwin car. The children returned in the evening.

Mrs. J. G. Pfeil entertained a group of friends at a coffee on Wednesday afternoon. The party took place at her home, 586 Eldorado-st.

A party of young people held a "wienner roast" at the home of Lake Butte des Moris Tuesday evening. The party consisted of Elizabeth Peeble, Nettie Doberstein, Myrtle Wrang, Marie Sommers, Frank and John Plach, Lester Beyer and Alfred Troier.

Waverly beach drew a large attendance for its "night on the farm" Wednesday. The dancers enjoyed the novel surroundings of the hall, including live animals and fowls and other equipment to make the atmosphere rural. It is expected that there will be a large attendance Thursday evening, which is ladies' night.

Friends and relatives of Mr. and Mrs. Glenn Sheldon, Jefferson-st., surprised them at their home on Wednesday evening in honor of their eleventh wedding anniversary. Games and dancing occupied the evening.

**MARRIAGE LICENSES**  
But one application for marriage license was filed with Herman J. Kamps county clerk, Thursday morning. The prospective couple is Henry J. Welland, Milwaukee, and Miss Florence M. Black of Kaukauna.

## Invite Kids To Reception For Young Actors

All the youngsters and kiddies of Appleton have been invited by the Pettibone-Peabody company to be its guests at a reception and party for the "Sunshine Kiddies" on the fourth floor of the store from 1 to 2 o'clock Friday afternoon. The "Sunshine Kiddies" are playing in Appleton theatre this week.

The party is to be an enjoyable affair for the youngsters. Toys will be provided for their entertainment and games of various sorts will be offered. Every youngster in Appleton is invited to get acquainted with the little visitors and participate in the good time.

## WEDDINGS

The wedding of Miss Ruby Millard, daughter of Mrs. Thomas Millard, 1492 Spencer-st., and Roy F. Moore of Rosholt, took place at 3:30 Thursday morning at the Methodist church. The Rev. J. A. Holmes performed the ceremony. The couple was attended by Miss Jennie Millard and W. A. Moore. A wedding breakfast was served in the French room of the Sherman house and the bride and groom left for a camping trip in the northern woods region. They will make their home at Rosholt.

The wedding of Miss Della Daelke, daughter of Mr. and Mrs. Joseph Daelke, 1146 Gilmore-st., and Anton Stingle, son of Mr. and Mrs. Frank Stingle of Black Creek took place at 10 o'clock Wednesday morning at St. Mary's church in Black Creek. The couple was attended by Miss Hazel Daelke and Alex Stingle. A reception was held at the home of the bride's parents after the ceremony. The young people will make their home on a farm west of Black Creek.

The wedding of Miss Elsie Schroeder, daughter of Mr. and Mrs. Julius Schroeder of Center and Ferdinand Arnold, son of Mr. and Mrs. William Arnold, also of Center took place at the Zion Lutheran church at 2 o'clock Wednesday afternoon. The Rev. Theodore Luther performed the ceremony. The couple was attended by the Misses Alma Schroeder and Esther Arnold and Messrs. Harry Arnold and Frank Schroeder. A reception was held at the home of the bride's brother, Carl Schroeder, Randall-st. They will live in Appleton.

Miss Ella Knapstein, daughter of Mr. and Mrs. John Knapstein of Greenville and George Pieta of Appleton were married Wednesday morning at St. Mary's church, Green Bay, by the Rev. Edward Schlimberg. The couple was attended by Miss Mamie Knapstein, sister of the bride and Levi Dietz, brother of the groom. A reception at the home of the bride's parents was attended by 50 guests. Mr. and Mrs. Knapstein left for Milwaukee, Chicago and Iowa on a wedding trip. They will reside at Greenville.

## CHURCH SOCIETIES

The Sunday school of the Evangelical association of the town of Center will give its annual children day program at its church next Sunday evening. The exercises will begin at 7:30.

## TRUSTEE IS NAMED FOR BANKRUPT ANTIGO MAN

A. H. Anderson of Antigo was made trustee in the bankruptcy case of Sigfred Nelson, Antigo grocer, at a meeting of creditors in the office of the referee in bankruptcy. Appraisers appointed to place a value on Mr. Nelson's assets are three Antigo men, F. Knutnick, M. J. Evenson and George Wallerichew.

## How a "Dress Disaster" Brought Me Good Luck

By MRS. D. R. C.

I had made my little daughter a dainty white dress for "Sunday best," and right away she got a great smear of black grease on it.

I washed it at once, but most of the ugly stain remained and I was in despair until I happened to read an article, which told of the laboratory tests that a woman's magazine had made on GREEN ARROW soap, the new laundry soap containing olive oil.

It said that in one remarkable test GREEN ARROW removed machine grease from a garment after ordinary laundry soap had failed.

Just my problem! I immediately tried some GREEN ARROW soap and it took all the grease stain out of Marian's dress. It looked like new again.

Of course, after that "demonstration," I wouldn't use anything but GREEN ARROW for the family washing.

First, I noticed my hands. They were getting back the soft, smooth whiteness they had when I was a girl. And the next pleasant thing I noticed was how unusually white and clean GREEN ARROW made my clothes, with so little rubbing and with no boiling. Since then I've read the reason:

GREEN ARROW contains olive oil as do the soaps used by experts in the fabric mills. And GREEN ARROW is all soap—not like ordinary laundry soap, which science has proved is a quarter to a half filler, and rots clothes.

Because it makes clothes wear so much longer and looks so much prettier, I, for one, would be willing to pay a big price for GREEN ARROW. But women don't have to. The Palmolive Company has reached such a huge production in its olive oil products that they are able to give the home this large pure soap bar containing olive oil as well as naphtha at almost as low a price as the ordinary soap containing "filler." The saving in GREEN ARROW bars alone makes up the difference, for being all soap it goes much farther.

## PERSONALS

E. D. Shackelford has returned home after a business trip of three weeks in Chicago.

Miss Nellie Knight autored to Oshkosh Wednesday evening.

Miss Rose Bahcall has returned from two weeks visit in Chicago. Mr. and Mrs. Howard Carson of Ironwood, Mich., are visiting friends in this city.

Dr. A. E. Rector was a visitor in Milwaukee on business Wednesday. Mrs. Anton Van Dyke and son Norbert of Niagara, is visiting at the home of her mother, Mrs. M. Knight, 614 Maple-st.

Mrs. Rose Shure and three children of Chicago, are visiting relatives in Appleton.

K. F. Matthews of Waukesha, transacted business Wednesday in this city. Mr. and Mrs. Charles A. Decker of Providence, R. I., are visiting relatives in Appleton.

Mr. and Mrs. H. P. Sauter of Milwaukee, formerly of this city, are visiting friends and relatives in Appleton.

W. A. Bloy of Milwaukee, was an Appleton business visitor Wednesday. Miss Maybelle Zealley of Milwaukee, who is a junior at Lawrence college, is spending the summer in Appleton.

Mrs. William Schlafke and daughter, Mildred, are spending three weeks at the Kappa Delta sorority camp on Washington Island.

Mr. and Mrs. P. E. Saecker have returned from a trip to Three Lakes. Miss Louise Ryan is spending three weeks visiting relatives and friends in Gibson City, Ill.

Miss Irene Finnegan of Hammond, Ind. is spending the summer with her aunt, Mrs. J. L. Jarquott.

Mr. and Mrs. D. H. Pierce have returned from a short auto trip through Michigan.

Miss Helen Wolf had an operation for tonsils and adenoids at St. Elizabeth hospital on Thursday.

Mrs. J. J. Sherman, who has been in Chicago several weeks, where she submitted to an operation, arrived home Wednesday evening. She was accompanied by Dr. and Mrs. S. Fomon and son and by the Misses Marie and Agnes Sherman.

Mrs. William J. Korrad, Jr., is visiting her sister, Mrs. A. G. Neu meister, at Milwaukee.

Albert Rehbein, Emil Voeks and Fred Stoeffel were in Port Washington on business Wednesday.

Mr. and Mrs. Fred Harris of Witzenburg, are visiting Mr. Harris' parents, Mr. and Mrs. Orville Harris, Winnebagost.

Mr. and Mrs. Ray Messing of Milwaukee, and Mrs. Dora Falkenhain of Des Moines, Ia., are guests of Mr. and Mrs. J. F. Behnke.

Mrs. Charles Pain has returned to her home in Chicago after visiting at the home of her parents, Mr. and Mrs. W. T. Ross, 670 Drew-st.

## 1,000 PARCELS OF LAND SOLD FOR DELINQUENT TAX

More than 1,000 parcels of land belonging to delinquent taxpayers were sold at the delinquent tax sale Tuesday by Louis A. Peterson, county treasurer. The number was far in excess of that sold last year.

A greater amount of money also was involved. The largest amount of delinquent taxes was in the town of Onida which was approximately \$14,000. Appleton's delinquent tax list amounted to about \$9,000, that of Kaukauna about \$2,000, and the total for the county in the neighborhood of \$18,000.

The purchases were made mostly by real estate agents. An opportunity will be given the delinquents later to redeem the property by paying the sale price, interest and special charges.

See Thomas' Want Ad under Business Opportunities.

## STATE PAYS LITTLE FOR POOR CHILDREN

**County is Entitled to One-third of Cost But Gets Only One-Fourteenth**

The sum of \$1,238.25 has been received by Louis A. Peterson, county treasurer, from State Treasurer Henry Johnson as state aid for dependent children in Outagamie-co. This, however, represents only the pro-rata amount allowed by the state for this purpose on the basis of money expended by the county in 1921 under the operation of the so-called mothers' pension law.

The amount is a great deal less than the one-third due the county under the provisions of the law. The county last year spent more than \$20,000 for dependent children, but the state aid received represents little more than 7 per cent.

Never since the law went into effect have the counties received all the money to which they were entitled and the pro-rata amount received each year has gradually diminished, while the share of the counties has grown larger. The reason for this is that the original appropriation made by the legislature has never been increased in proportion to the expenditures.

## COMBUSTION STARTS FIRE IN HOME; LOSS IS \$150

Spontaneous combustion presumed to have been caused by oily rags started a fire about 7:30 Wednesday evening in a summer kitchen at the home of Mrs. Alice Frisby, 671 Durkeest. The fire got a good start before the fire department arrived but was extinguished in a few minutes. The damage amounted to approximately \$150.

Large numbers of people followed the trucks to the fire and an ice cream social conducted nearby by a church society did a rushing business as a result.

## MONTHS OF SUFFERING

**How a Baltimore Girl Recovered Her Health**

Baltimore, Maryland.—"For several months I suffered with severe backache and general weakness. I could not sleep comfortably at night for pains in my back. I found your book at home one day and after reading it began at once to take Lydia E. Pinkham's Vegetable Compound. I have had very good results and some of my girl friends are taking it now. You may use this letter to help other girls, as the letters in your book helped me."

—ROSE WADSWORTH, 3018 Roseland Place, Baltimore, Md.

That is the thought so often expressed in letters recommending Lydia E. Pinkham's Vegetable Compound. These women know what they have suffered, they describe their symptoms and state how they were finally made well.

Lydia E. Pinkham's Vegetable Compound is a medicine made from medicinal roots and herbs, and without drugs, to relieve the sickness women so often have, which is indicated by backache, weak feelings, nervousness, and no ambition to get anything done or to go anywhere. It has helped many women. Why not try it?

## MORE PUBLICITY FOR CITY URGED

Advertising of Appleton to the state and nation on a more extensive scale will be recommended to the board of directors of the chamber of commerce at the biweekly meeting Thursday evening as one of the major activities in the yearly program of work.

This decision was reached by the publicity and convention committee at a meeting Wednesday afternoon. Various methods of accomplishing this were discussed.

It is possible that the chamber will request the publicity committee to bring more conventions to Appleton in the future, not only as a means of advertising Appleton, but to let local business houses profit by the presence of the visitors here. It is estimated that each person attending a convention spends at least \$15 while he is in the city.

## Birthday Party

Miss May Vandehay was tendered a surprise at her home on the Menasha-rd. Wednesday night by eight of her friends, in honor of her nineteenth anniversary. The evening was spent in games and dancing.

## Wash With Cuticura Soap and Have a Clear Skin

Bathe with the Soap and hot water on rising and retiring, using plenty of Soap. If any signs of pimples, redness or roughness are present smear with the Ointment and let it remain five minutes before bathing. Always include the Cuticura Talcum in your toilet preparations.

Sample Each Free by Mail Address: "Cuticura Laboratories, Dept. 212, Malden, Mass." Send money where Soap, Ointment and Talcum are sold. **Cuticura Soap** shaves without mug.

## PLAN STONE BRIDGE ON SOUTH RIVER-ST.

Instead of filling in the earth washout on South River-st. by the recent flood it is possible a stone arch bridge will be built. The city engineer is preparing plans for a structure of this kind which will be presented to the council at its next meeting. The stone arch will make it possible for the city to use the gap for a driveway at some future time in the event it is ever needed.

## FRECKLES

**Now Is the Time to Get Rid of These Ugly Spots**

There's no longer the slightest need of feeling ashamed of your freckles, as Othine—double strength—is guaranteed to remove these homely spots.

Simply get an ounce of Othine—double strength—from any druggist and apply a little of it night and morning and you should soon see that even the worst freckles have begun to disappear, while the lighter ones have vanished entirely. It is seldom that more than an ounce is needed to completely clear the skin and gain a beautiful clear complexion.

Be sure to ask for the double strength Othine as this is sold under guarantee of money back if it fails to remove freckles.

For A Beautiful Satiny Skin

—smooth and clear and free from all roughness, irritations and impurities we recommend the use of

Harmony Arbutus Complexion Cream

It contains no grease; therefore can be applied freely at any time of the day without fear that it will "show." Helps to whiten the skin and to thoroughly cleanse the pores. Soothing, antiseptic, delightfully scented.

## 80,000 CANS IS DAILY PEA OUTPUT AT HORTONVILLE

Farmers Cannot Deliver Peas Fast Enough to Keep Factory at Capacity

Special to The Post-Crescent  
Hortonville—The Fox Valley Canning factory has been canning peas for the past two weeks. Some days the production has run as high as 80,000 cans. The output would be considerable larger if the peas would mature faster. Due to this fact some of the employees have been laid off alternate days this week. About 55 persons are employed, including several men from Randolph. It is expected the pea canning season will last about two weeks longer.

## BRIDE'S FATHER TIES NUPTIAL KNOT

Miss Florence Shaw is Married at Hortonville to Arthur Hammond Wednesday

(Special to Post-Crescent)  
Hortonville—The marriage of Miss Florence Shaw, daughter of the Rev. and Mrs. J. R. Shaw, and Arthur Hammond, son of Mr. and Mrs. C. Hammond, occurred at 4 o'clock Wednesday afternoon at the home of the bride's parents. The bride's father, the Rev. J. R. Shaw, pastor of the Methodist church, performed the ceremony.

After the ceremony a supper was served to immediate relatives. Mr. and Mrs. Hammond left on a several weeks' trip in the bridegroom's new automobile. They will spend some time at summer resorts and will visit the bride's sister, Mrs. West Wright at Dunbar. Upon their return they will make their home on Appleton St. Mr. Hammond is employed at the local depot.

**SHOWER FOR MISS SHAW**  
Monday evening Mrs. John Buchman entertained at a miscellaneous shower for Miss Florence Shaw. A number of her friends and neighbors were present and she was the recipient of many gifts.

A son was born to Mr. and Mrs. Elmer Luck Monday.

Mr. and Mrs. H. Knutzen returned Monday from their wedding trip to Chicago and are now established in their home on Oakwood St. Mr. Knutzen is manager of the local telephone exchange. Mrs. Knutzen was a former Appleton girl.

Mrs. D. A. Mathewson has returned from a several weeks' visit at Chicago and Milwaukee.

Dr. and Mrs. F. O. Brunkhoist autot to New London Sunday evening.

Mr. and Mrs. John Jones and Mrs. Martha Jones of Green Bay autot here Sunday and visited relatives.

Mr. and Mrs. Irving Zuelke of Appleton were in town Sunday.

**ATTEND SYNOD EVENT**  
Mrs. E. L. Graef, Miss Florence Miller, and Miss Mabel Fischer autot to Weyauwega Sunday and attended the meeting of the North Wisconsin district of the Evangelical Lutheran synod of Wisconsin.

Mr. and Mrs. Lloyd Wright and son of Milwaukee spent a few days at the home of Mrs. Wright's parents, Mr. and Mrs. Frank Hoier St.

William Rosenfeldt is employed at Green Bay.

Mr. and Mrs. Charles Lenz of Appleton were guests of Mr. and Mrs. Charles Krueger Sunday.

Mr. and Mrs. James McElroy and children of Chippewa Falls autot here Saturday and spent the week end with George McElroy, Mrs. Douglas, Sunday they visited at the Fred Douglas home at Appleton and Monday returned to Chippewa Falls.

Mr. and Mrs. W. Sheerin and the Misses Lawrence and Kefner of Waupaca attended the dance here Friday evening.

Mr. and Mrs. H. P. Meffert of Appleton spent Sunday here.

**HOME FROM WEST**  
Francis Schwarz, who has been employed at American Falls, Idaho, for the past three years returned to his home here Saturday. He is now employed by Hortonville Auto Co.

Mr. and Mrs. Henry Fiestedt and son Armand autot to Center Sunday. The Baptist church is receiving a coat of paint this week.

Arthur Dohberstein is ill.

Several members of the Lutheran Congregation attended the meeting of North district of the Wisconsin Lutheran Synod Weyauwega Sunday.

Ed McNutt was a business visitor at Neenah Tuesday.

## MISS FISHER WEDS NICK LUMMERDING

Kaukauna—Miss Wilamina Fisher and Nicholas Lummerding were married at 8 o'clock Wednesday morning in St. Mary church, the Rev. F. X. Steinhilber officiating. The couple was attended by Miss Alma Fisher, sister of the bride and Ray Lummerding, brother of the bridegroom.

A reception was held at the home of Mr. and Mrs. John Fisher, River rd., South Kaukauna. Mr. and Mrs. Jacob Lummerding, parents of the bridegroom, celebrated their fortieth wedding anniversary also.

Mr. and Mrs. Lummerding left on a wedding trip to the Dells and Madison and upon their return will live on the south side. Among the out of town guests who attended the wedding and the fourth anniversary celebration were Mr. and Mrs. Jacob Gerend, Columbus, O.; Nick Gerend, Milwaukee; Mr. and Mrs. Peter Breider, and William Breider, Muskegon; Mr. and Mrs. Joseph Fisher, Wenzel Fisher, Mr. and Mrs. Jacob Skaal, Appleton; Mr. and Mrs. Joseph Steidl, Menasha; Mr. and Mrs. Michael Pfeifer, and Nick Pfeifer, Cleveland, Mr. and Mrs. Clyde Carter, Seymour.

## MISS CONLON BRIDE AT PRETTY WEDDING

Kaukauna—A pretty wedding occurred at 2 o'clock Wednesday morning in Holy Cross church when Miss Ruth Conlon became the bride of John J. Sadlier, son of Mr. and Mrs. Michael Sadlier. The ceremony was performed by the Rev. Msgr. Peter J. Lechman.

The bridal couple was attended by Miss Mildred Conlon, Miss Hazel Conlon, sisters of the bride and M. J. Sadlier and Joseph T. Sadlier, brothers of the bridegroom. A wedding breakfast for 30 relatives was held at Mulholland's Tea Shop after the ceremony. A reception followed at the home of the bridegroom's parents on Park St. Mr. and Mrs. Sadlier left Wednesday afternoon on several days wedding trip to Milwaukee and Keweenaw and upon their return will live in Green Bay.

Our of town guests were Mrs. Charles Gilson, Mrs. Charles Sommers and Miss Hazel Conlon, Detroit; Mrs. E. Foley and Daughter, Mary L. and Mrs. C. R. Rolin, Pekin, Ill.; Dr. and Mrs. W. Murphy, Green Bay; Mr. and Mrs. Edmund Sadlier and daughter, Helen, Milwaukee; Mr. and Mrs. J. C. Sadlier, Kenosha; M. J. Sadlier, Bismarck, N. D.

**KAUKAUNA**  
Kaukauna—Mr. and Mrs. Joseph Behler and daughter of Manitowish arrived here Thursday to spend a few days at the home of Mr. and Mrs. John Behler.

Mr. and Mrs. William Van Dyke returned Tuesday evening from an auto trip to Milwaukee where they transacted business.

Miss Ella Lorenzen left Thursday for Chambers Island, an exclusive girls camp where she will spend the rest of the summer. She had just returned from three weeks visit with relatives in Sheboygan and Milwaukee.

Miss Laura Boyd will leave Saturday for New London where she will join a group of girls on a several days camping trip.

Mrs. Edward Abenossus and son Paul of Elizabeth, N. J. are visiting at the Aufreiter and Spindler homes.

Miss Margaret McMahon of Milwaukee is spending her vacation at her home in Kaukauna.

Mrs. W. Rader and Miss Lorraine Rader autot to Ellison Tuesday.

**BATH CAPS**  
We have just received a shipment direct from NEW YORK, of the

Latest in Beach Millinery

They are much in vogue and decidedly different from any others shown in the city.

Prices 25c to \$1.25  
COME AND SEE THEM!

**Union Pharmacy**

Following the ceremony a wedding dinner was served to immediate relatives at Cudahy Grill with a reception at the home of the bride in Milwaukee. Mr. and Mrs. Lorenzen are visiting in Kaukauna but will leave in a day or two to complete their wedding trip through northern Wisconsin. Upon their return they will reside in Milwaukee, where Mr. Lorenzen is employed.

## PROVIDE SEATS FOR JULY 4 PICNICKERS

Kaukauna—Lack of seating capacity for crowds attending an Independence day picnic has always been a draw back to its success. That is one of the things the local Loyal Order of Moose is aware of and efforts are being made to provide seats for everyone who attends the picnic and watches the fireworks at municipal playgrounds next Tuesday, July 4.

Activities are scheduled to begin on the grounds at 1 o'clock in the afternoon and will continue until midnight. There will be no street parade, in fact, there will be nothing in the way of a celebration in the morning.

The big events of the day and evening will be the ball game in the afternoon between the local league squad and the Fond du Lac club and the fireworks display put on by the Moose in the evening.

## GREENVILLE HAS TWO WEDDINGS WEDNESDAY

Special to The Post-Crescent  
Greenville—A pretty wedding took place at the Lutheran church at two o'clock Wednesday afternoon when Miss Erna W. Borchardt, daughter of Mr. and Mrs. Albert Borchardt, became the bride of Merle M. Culbertson, son of Mr. and Mrs. Henry Culbertson. The Rev. L. Kasper performed the ceremony.

The couple was attended by Miss Lydia Borchardt, sister of the bride, and John Culbertson, a brother of the bridegroom. Little Berenice Glocks of Dale and Arnold Borchardt, sister of the bride, were bridesmaids.

An informal reception followed the ceremony at the home of the bride's parents for about 100 guests. Mr. and Mrs. Culbertson will reside on the farm on Medina rd.

The marriage of Miss Eleanor Knapton, daughter of Mr. and Mrs. John Knapton, to George Dietz of Ellington took place at St. Mary church Wednesday forenoon. A reception for immediate relatives followed the ceremony at the home of the bride's parents.

Herman Diemel and H. D. Leeman autot to Shiocton for a day last week.

Maine farmers have been busy setting out cabbage plants the past week.

Henry Leeman made a fishing trip up north Saturday.

Fred C. Ames was a Shiocton visitor one day last week.

**THE RUDY DIVING FLUE FURNACE**

**HOW DO YOU KNOW**

We can save you money on that furnace job unless you give us a chance to figure with you?

**LISTEN TO THIS:**

We have over 500 RUDY Furnaces in use in Appleton, on our personal endorsement and guarantee that they were perfect in every way.

We buy in carloads at prices which enable us to offer genuinely good furnaces, made of new, clean charcoal iron, at prices that are attractive, to say the least. Look over the furnaces on our sample floor. The RUDY is a heavy, durable construction in every part. There is nothing to burn out, nothing to wear out, and these generously proportioned furnaces will heat your home with a surprisingly small amount of fuel.

**WE REPEAT:**

How do you know we can save you money unless you give us a chance to figure with you?

## MEDINA WOMAN BUYS HOME IN APPLETON

Special to The Post-Crescent  
Medina—Mr. and Mrs. Ardie Van Alstine and Mr. and Mrs. Edward Krock were Appleton shoppers Saturday.

Miss Anna Bottensek has gone to Madison to attend summer school.

Mrs. William Knaack and children of Milwaukee are visiting relatives in this vicinity for a few weeks.

Mr. and Mrs. Melvin Galja of New London were callers at the Alfred Willis home Saturday.

Mrs. Lora Root visited relatives at Waupaca for a few days.

Mr. and Mrs. John Tanke of Fremont were guests at the Saul Yanke home Sunday.

Mrs. Guy Hopkins and daughter spent Tuesday in Appleton. Tuesday, Mrs. Robert Wason was ill the first part of the week.

Mr. and Mrs. Ardie Van Alstine and family and Mrs. Linn Root spent Sunday at Neenah. Miss Anita Van Alstine stayed for a few weeks' visit.

The Medina baseball team won the game at Readfield Sunday 12 to 2. Medina will play at Hortonville next Sunday.

Samuel Ray returned home Friday from Rochester, Minn. where he has been under treatment at Mayo hospital for two weeks.

Mrs. Minnie Van Alstine has moved her household goods to Appleton where she has bought a home. Her niece, Mrs. Mamie Truher expects to make her home with her.

**FARMERS BUSY WITH CABBAGE PLANTING**  
(Special to Post-Crescent)  
Leeman—Mrs. Flint and Miss Doris Nelson returned to their home at Cicero Sunday. They have been spending the past week with relatives here.

Mr. and Mrs. H. O. Leeman and daughter Faye of Suring are visiting friends and relatives here.

J. R. Rhoden and B. Rhoden were Shiocton visitors Tuesday.

Mr. and Mrs. John Hamilton and family left for Eagle river last week where they will make their home.

Mr. and Mrs. W. S. Greely visited relatives at Shiocton, Sunday.

Mrs. Niel Brown, Mrs. Walter Fuhrman and Mrs. Gaylord Scott were called to Deer Creek Saturday by the death of their father, Mr. Berton.

Henry Leeman made a fishing trip up north Saturday.

Fred C. Ames was a Shiocton visitor one day last week.

## CANDIDATES MAKE THEIR ACCEPTANCE

By Associated Press  
Madison—Formal announcement of their candidacies for the several offices for which they were named at the Republican state conference June 1 called by the committee of 44, at Milwaukee was made Wednesday following a meeting of the candidates held Tuesday in the office of Attorney General William J. Morgan.

The statement follows:  
"We, the undersigned, hereby announce our candidacies for the Republican nominations for the several offices set opposite our names, for which we were endorsed by the 1,000 men and women at the Republican state conference held in Milwaukee on June 1, 1922. We are in accord with the platform of that convention and are opposed to hand picked slates and have controlled conferences of self-chosen leaders. We pledge our support to the principles announced by William J. Morgan, our candidate for the Republican nomination for governor, and we will make our campaign upon those sound progressive principles. The issue in this campaign is whether constructive principles of government or destructive radicalism shall prevail in Wisconsin.

(Signed)  
"William A. Ganfield, for United States Senator."  
"William J. Morgan, for governor."  
"Riley S. Young, for lieutenant governor."  
"Martin R. Paulsen, for secretary of state."  
"John F. Baker, for attorney general."  
"Henry Johnson, for state treasurer."

Joseph Doerfler, who accompanied the Wisconsin Bankers association on its lake trip to Buffalo, N. Y., returned home Wednesday.

**IF HAIR IS TURNING GRAY, USE SAGE TEA**  
Here's Grandmother's Recipe to Darken and Beautify Faded Hair

That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundredfold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous. adv.

## JAMISON FIRST TO FINISH COUNT OF WAR VETERANS

Census Shows Greenville Has  
26 Veterans of World War  
—File 2 Claims

The town of Greenville was the first district in this county to complete its work in the census of former service men conducted to ascertain their residence and their needs. The survey in this township was conducted by Stanley Jamison of Homestead Farm, Greenville, and much credit is due him for the efficient manner in which it was done. The work is actually a patriotic service and will be of great help to the United States veterans bureau in cleaning up the post-war work.

According to Mr. Jamison's report, there are 33 former service men in his township. The number of disabled veterans was three. None of these disabled men has ever received compensation or government care outside of his initial examination. Two claims are old ones and are now being followed up. One new claim was filed this month. All have received federal bonus of \$80. All but two received state cash bonus of \$10 a month. One application for state cash bonus has been sent, the other is pending the receipt of the man's certificate of service in lieu of lost discharge. One man has lost his dis-

charge, which was never recorded at the county courthouse. One man is taking advantage of the state educational bonus, \$30 a month, which is the alternative of the state cash bonus. He is at the University of Wisconsin.

**FIVE ARE INSURED**  
Mr. Jamison further reports that five men are keeping up their government insurance. Six men have received their victory medals. Since the report 26 applications for victory medals have been sent to men who have received the medals. One service man died in Camp McClellan, Ala. Preference for forms of soldiers' bonus registered as follows: Adjusted pay, 2; vocational training, 1; paid-up insurance, 2; farm and home aid, 12. Two men have made applications for membership in the American legion and the applications were given to A. A. Grizmacher of the local post, who is not in charge of that phase of the work. Old records have been followed up by Mr. Jamison and all Greenville Red Cross records now are up-to-date. The Red Cross suggests that all men have their discharges recorded at the courthouse.

**Long Auto Trip**  
Mr. and Mrs. Eugene S. Colvin and Mr. and Mrs. L. W. Whitmore of Menasha leave Saturday on an auto mobile trip to Yellowstone park. They expect to be absent three weeks.

Oliver Gibson of Oshkosh was in Appleton on business Wednesday.

**Dance at Little Chicago.**  
Peterson's Orchestra of Green Bay. Eli Rice, Singer. Friday, June 30th.

## The City's Business

### WATERWORKS SUPERINTENDENT

(This is the eleventh and last of a series of articles on the duties and responsibilities of Appleton's city officers.)

By L. A. Fischer  
The waterworks plant is the kitchen of the city. It is the place upon which this big family of 20,000 people in Appleton depends for its daily supply of drink and it is the business of the chief to see that these people get the water pure and fit to drink. It can readily be seen that that man bears a grave responsibility.

A. J. Hall was employed by the water commission four and a half years ago as chemist and bacteriologist. Two years ago he was also placed in charge of the mechanical operation of the plant. Thus he now serves the city as hydraulic engineer, chemist and bacteriologist.

**OPERATES PLANT**  
As superintendent of the pumping station he supervises the operation and maintenance, being assisted by the chief engineer. Here he looks after the pumping of water into mains by two 225 horsepower Diesel oil engines, each being connected with two pumps with a daily capacity of 4,000,000 gallons. An auxiliary motor driven pump, with a capacity of 2,000,000 gallons per day, is used in emergencies, which brings the total pumping capacity to 10,000,000 gallons in 24 hours. The pumps operate 17 hours a day. The surplus water backing up into a standpipe of 500,000 gallons capacity and thus neutralizing the pressure. There is a shut-

down period for the pumps of seven hours daily, in which the city gets its supply from the standpipe, except in case of fires. Employees work eight hour shifts and are at all times subject to call. A covered reservoir of 2,500,000 gallons is kept ready at all times for emergency, such as a large fire.

**DAILY ANALYSIS**  
In his work as superintendent of the filter plant he sees that the filter units, settling basins, chlorine machines and hydraulic valves are kept in constant repair. He supervises the intricate process of filtering the 4,000,000 gallon capacity of water to make it pure. This capacity is considered sufficient for the city's fire protection, but in an emergency, using the reserve water in the reservoir, it is possible to pump 6,500,000 gallons of water into the mains in 24 hours.

The process of filtration is a chemical one throughout. The water must be properly treated and must be chemically tested every day. As chemist he analyzes the water to determine its alkalinity, color, turbidity, odor, taste and residual chlorine and treats it accordingly to correct it. This analysis is made early in the morning.

**TESTS FOR GERMS**  
As bacteriologist he tests the water every afternoon to ascertain its degree of pollution. The water must be kept free from pollution and disease germs, especially those of typhoid. Samples of raw water, as it comes

from the river, unfiltered, is used in the test, and, then diluted with distilled water six times until one sample is free from contamination. He will also test the filtered water as it comes out of the taps. Occasionally he is asked to make tests of the well water and also of the milk sold in Appleton. He makes daily reports, summarizes them and submits them to the water commission and to the state board of health.

This concludes the series of articles on city officers. Those of fire chief, chief of police and superintendent of schools, held by G. P. McGillan, G. T. Prim and Miss Carrie E. Morgan, are too well known as to require a description of their duties and responsibilities.

## WILL MOVE BODY OF MEXICAN GENERAL

By Associated Press  
Mexico City.—The body of General Felipe Angeles who was shot 2 years ago in Chihuahua following his capture by Carranza forces, probably will be brought to Tachuca, his former home, for final interment. A movement to that effect has been started and coincident is a subscription campaign to attain funds for a suitable monument to the famous artillery expert in Mexico City.

General Angeles was one of Mexico's most illustrious military men and during the world war achieved considerable fame in the French army as a master of artillery.

## KEEP EYES OPEN AT RAILROAD CROSSINGS

Rail Companies Trying to Keep  
Down Number of Grade  
Accidents

The Chicago and Northwestern railroad is distributing a safety bulletin in the interest of the movement to cut the number of crossing accidents.

The bulletin, replete with statistics and helpful suggestions is as follows: "The report of the Interstate Commerce Commission shows:

1916, 1,652 persons killed, 3,859 persons injured; 1917, 1,777 persons killed, 4,358 persons injured. 1918, 1,653 persons killed, 4,132 persons injured; 1919, 1,677 persons killed, 4,400 persons injured; 1920, 1,791 persons killed, 5,077 persons injured. 1921, 1,792 persons killed, 4,818 persons injured, making a total of 10,252 persons killed and 26,692 persons injured in six years, while walking or driving over railroad tracks at highway crossings in the United States.

"Engineers are required to keep proper lookout and to give warning by sounding the whistle and ringing the bell when approaching crossings, and the company is doing all it can to prevent accidents of this kind.

"Do you realize your responsibility in this manner and are you doing your part?"

"Surely your life and the lives of your relatives and friends who are riding with you are worth many times the trouble and time required to stop

or look or listen before crossing the tracks.

"There never has been and never would be an accident of this kind if the occupants of automobiles and other vehicles would stop and look and listen before crossing the tracks. "A life or a limb, once gone, can never be brought back."

## SHAW OFFERED BIG SUM FOR FILM PLAYS

By Associated Press  
London.—George Bernard Shaw has been offered \$100,000 a year for five years by an American syndicate to produce two motion picture films each year. The author made this announcement himself at a dinner of the Society of Authors in London. Declaring that the cinema rights of a single story might be worth \$50,000 he urged young authors not to be too ready to give concessions to cinema producers or literary promoters, among whom, he said, there was unfortunately no absolute standard of honesty.

"A man who sells a table or a chair charges no more than the cost of the article plus a reasonable percentage of profit," he said, "but nothing of the kind applies to the publishing, theatrical or cinema business. The truth is the whole thing is a gamble, and producers who make perhaps one success in 10 or 20 ventures want to make that success pay for all failures."

Miss Elizabeth Aalbers of Green Bay, is visiting Appleton relatives.

## ASPIRIN

Say "Bayer" and Insist!

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for:  
Cold, Headache, Toothache, Earache, Neuralgia, Lumbago, Rheumatism, Pain, Pain.  
Accept only "Bayer" package which contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer, Manufacture of Monoaceticacidester of Salicylicacid, adv.

# George Walsh Co.

2 DOORS WEST OF STATE BANK

DENGEL BUILDING

865 COLLEGE AVENUE

# SCARAMOUCHE

by Rafael Sabatini

**BEGIN HERE TODAY**

There were two burning motives in the heart of ANDRE-LOUIS MOREAU which drove him to seek vengeance on the great noble of Brittany, the MARQUIS DE LA TOUR D'AZAY. The profligate noble was suing for the hand of the young and beautiful ALINE DE KERCADIEU, niece of the Lord of Gavrilac.

QUENTIN DE KERCADIEU, who was popularly believed to be Andre-Louis' father. But more burning hatred of the Marquis had been caused by his brutal murder of Andre-Louis' dearest friend, the young and idealistic PHILIPPE DE VILMORIN, a divinity student. The Marquis, believing that Philippe had a "dangerous gift of eloquence" and fearing that the rumblings of discontent which were making way for the French Revolution would bring danger to his class, deliberately provoked a duel and killed the young student.

Andre-Louis decided to set out for Rennes and lay the case before the King's Lieutenant.

**GO ON WITH THE STORY CHAPTER VI**

It was on a horse hired from the Breton Arms that Andre-Louis set out next morning; and on horse's brisk ride brought him to the city of Rennes.

He rode into the upper and principal part of that important city of some thirty thousand souls and came at last to the Palais Royal, where he found the crowd to be most dense. From the plinth of the equestrian statue of Louis XV a white-faced young man was excitedly addressing the multitude. His youth and dress proclaimed the student and a group of his fellows acting as a guard of honor to him kept the immediate precincts of the statue.

Over the heads of the crowd Andre-Louis caught a few of the

wrongs by which we are all oppressed. Fearing that voice, shunning the truth as foul things shun the light, our oppressors sent their agents to silence him in death.

Le Chapelier released at last his hold of Andre-Louis' ankle, staring up at him the while in sheer amazement. What had come to him?

"Of assassins what shall you look for but assassination? I have a tale to tell which will show that this is no new thing that you have witnessed here today; it will reveal to you the forces with which you have to deal. Testimony . . ."

There was an interruption. A voice in the crowd, some twenty paces perhaps, was raised to shout:

"Yet another of them!"

Immediately after the voice came a pistol-shot and a bullet flattened itself against the bronze figure just behind Andre-Louis.

(Continued in Our Next Issue)

## EXCAVATORS UNEARTH 14 HUMAN SKELETONS

San Francisco — Fourteen human skeletons in plain, well preserved red wood boxes, unearthed by a steam shovel near the Marine hospital here, were held for identification by United States army authorities Wednesday. If the identities cannot be established each skeleton will be marked "unknown" and buried in the national cemetery at the presidio.

## STRIKING MINERS IN ATTACK ON EMPLOYES

Elkins, W. Va. — One hundred and five striking miners and their sympathizers were arrested at Thomas, W. Va., Wednesday when they tried to prevent working miners from entering the pits. Sheriff J. B. Clouse and ten deputies made the arrests and took the prisoners on a special train to Parsons, W. Va., where they will be given a hearing.

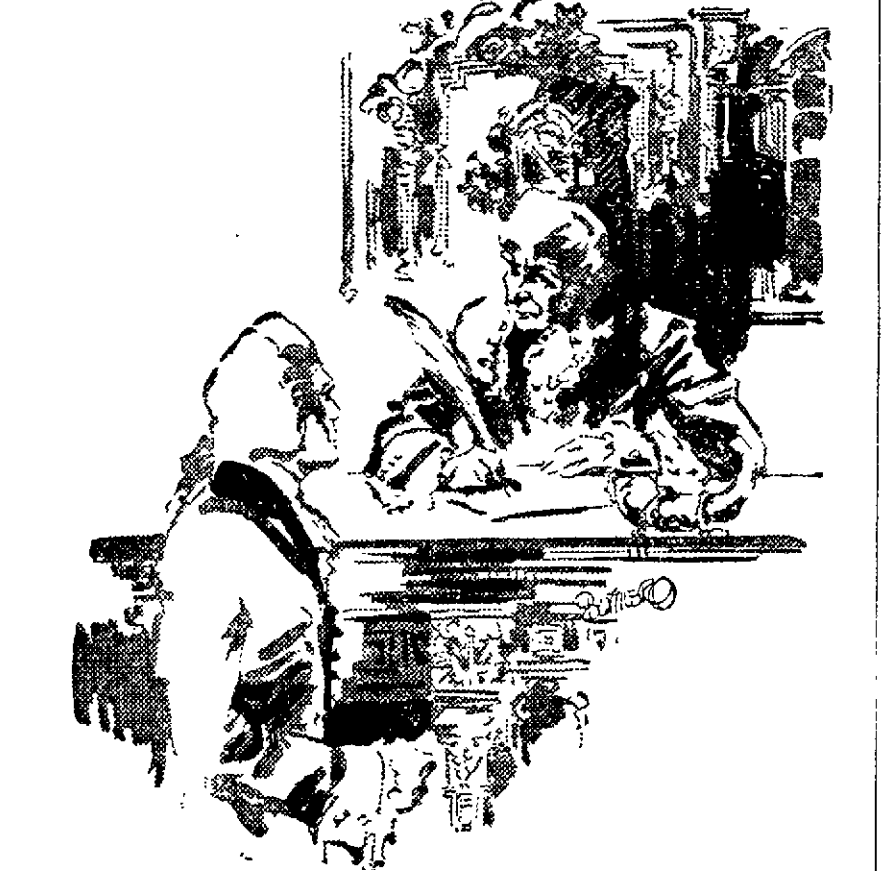

## THE NUT BROTHERS (Ches & Wal)

FISH HAVE SCALES ON THEIR BACK, HAVEN'T THEY?

There were cries of "To the Palais!" Down with the assassins! Down with the nobles!"

An artisan who stood shoulder to shoulder with him in the press enlightened Andre-Louis on the score of the increased excitement.

"They've shot him dead. His body is lying there where it fell at the foot of the statue. And there was another student killed not an hour ago."

"AND WHO, SIR, IS THE MAN YOU CHARGE WITH THIS?"

Phrases flung forth by that eager voice.

"It was the promise of the King. . . . It is the King's authority they flout. . . . They arrogate to themselves the whole sovereignty in Brittany. The King has dissolved them; their sovereign and the people. . . ."

Had he not known already of the events which had brought the Third Estate to the point of active revolt, these few phrases would fully have informed him. This popular display of temper was most opportune to his need, he thought. He put up his hired horse at the Corne de Cerf, and set out to the Palais de Justice.

That the King's lieutenant condescended to see him at all was probably due to the grave complexion of the hour. At last he was ushered into a fine well-lighted room furnished with enough silk and satin to have supplied the boudoir of a lady of fashion.

It was a trivial setting for a King's Lieutenant, but about the King's Lieutenant there was—at least to ordinary eyes—nothing trivial. At the far end of the chamber, before a goat-legged writing-table with Watteau panels, sat that exalted being. Above a scarlet coat with an ordering of lace in which diamonds sparkled like drops of water, sprouted the massive powdered head of M. de Lesdigueres. It was thrown back to scowl with expectant arrogance.

M. de Lesdigueres considered him very sternly.

"What is your name?" he asked "Andre-Louis Moreau."

"Well, Andre-Louis Moreau, if you can state your plea briefly, I will hear you."

"You shall be the judge of that, monsieur," said Andre-Louis, and he proceeded at once to state his case, beginning with the shooting of Marquis de Vilmorin. But he withheld until the end the name of the great gentleman against whom he demanded justice.

"And who, sir, is the man you charge with this?"

"The Marquis de La Tour d'Azay."

"Who?" he shouted, and without waiting for an answer, "Why, here's impudence," he stormed on, "to come

DOC SAYS ITS EASY  
TO DETERMINE SEX  
OF NEW ARRIVAL

And That's Only a Half of It—  
You Can Also Pradeter-  
mine His Job

BY MARGARET ROHE

If you would have a boy or girl, And if it is your wish one Should be a taxidermist and The other a musician.

Just concentrate Doc Lucas says, And use your own volition.

New York—All that delightful uncertainty as to whether it is going to be a girl or a boy is about to be done away with.

No longer will there be any danger of Betty arriving when Bobby has been expected.

According to Dr. Alzamon Ira Lucas of New York sex determination is a perfect cinch. All you have to do is to concentrate on which ever variety you want and you'll surely get it. Only for goodness sake never waver—just keep on concentrating.

If it is a boy you want, an excellent idea is to keep saying "he he he" over and over to yourself. Don't forget and mumble it out loud, how ever.

## BOON TO MOTHERS

Dr. Lucas' system is going to be an especially wonderful boon to mothers. They can go right ahead now and prepare a perfectly sweet baby blue layette quite secure in the knowledge that when the offspring arrives it won't be the kind that requires pink instead. That did use to be so upsetting.

Evidently Dr. Lucas goes on the premise that prospective parents are "two souls with but a single thought" for he doesn't divulge what would happen if father concentrated on an heir and mother on an heiress. It would probably depend on who was the better little concentrator. Yet again the answer might be twins.

Sex determination is just a little snack as compared with the rest of Dr. Lucas' versatility, however. What do you think? He can fix vocations as well! Imagine the possibilities!

Not only can you have just a girl, if you want her, but you can have a girl musician or a girl artist or a girl cook. If you prefer boys, you not make it a boy sculptor, a boy burglar or a Boy Scout. Go right ahead anything at all.

EXAMPLES NEEDED, TOO  
Of course it is a bit more intricate fixing this prenatal vocation stuff. It still calls for concentration, but it takes a setting of example as well. For instance, if you have set your heart on a musical offspring both parents must hold the musical thought. Then mother must get busy as an example seller and practice every day on some musical instrument whether she has any talent or not.

This may be a trifle rough on the rest of the family and the neighbors, especially if the instrument happens to be a cornet, but let nothing deter you. Consider the child and keep on tooting.

Parents of a more practical turn of mind would perhaps prefer an embryo master plumber in the home. In that case the mama would of necessity take up a little light plumbing every afternoon. Or she might try piping a bit.

The vocations from which you may pick for your predetermined pre-vocated offspring include agrarian, domestic trades, mechanical, business, professional, scientific, philosophical, literary, artistic and musical.

It certainly looks as if prospective mothers intending to follow the Lucas method would better hurry around and get their union cards.

RUSS TO PAY OFF ON DEBT  
IF ALLIES GIVE CREDIT

By Associated Press  
Moscow—If the powers presented at The Hague grant credits to Russia, the soviet government is prepared to pay a percentage of the Russian debt, proportionate to the credits received, declared Leo Kamenoff, acting premier, in an address before the Moscow communist conference.

"But," he added, "we refuse to pay only for de jure recognition and afterwards to receive money from private bankers owing to the fact that the government's themselves have little money."

DUTCH QUEEN DOES NOT  
LIKE TO SEE RED FLAGS

By Associated Press  
The Hague — Queen Wilhelmina does not like red flags and Foreign Minister Kamebeck has adopted a skilful plan to prevent Her Majesty from seeing Bolshevist pennants flying over the Orange hotel at Scheveningen, headquarters of the soviet delegation, upon her approaching return to Holland.

All the hotels at the beach resort have been requested to lower the colors of the various delegations which they are sheltering. The Union Jack, the Tri-Color of France, the Red Sun of Japan and the other national standards have all been lowered. Even the Dutch flag is not being hoisted over the long line of hotels adjoining the Bolshevist headquarters.

Married Folks Dance at Little Chicago, Monday, July 3rd. Old time orchestra.

## OUR FIRST YEAR

Chapter 73 — No Living Without Jack

By a Bride

I knew nothing was left for me in any life apart from Jack. That was the chief penalty for getting married. Had I never lived with Jack I'd have had a thousand interests in life, all humanity for my friends, all the world to wander in.

But just by having been married less than a year I had limited my happiness in some ancient elemental way to whatever made Jack happy, and my home to the place where he found his rest. I couldn't grasp the meaning of this change.

After I had so narrowed my horizon it was cruel that fate should make me choose between my own will and my husband's.

I counted the troubles he and I had, normal first year moods and silences. How petty I had been in each case.

Never again would I be petty, if our home survived our present quarrel.

Jack and I were beautifully polite and considerate of each other over Sunday. We talked of Marv Smith's new baby and of Mrs. Herrod's new car. And all the time we wanted to discuss our personal affairs.

At last the humor of the situation seemed to grip Jack. He said suddenly:

"Lady wife! We remind me of the Chinese advice for making marriage successful. That a husband and wife should be as guests in a house." To which I made a practical reply:

"The best thing we can do is to get out of our house. I want to hike till I'm weary!"

I didn't want to at all I wanted to stay at home and hear my husband make love to me. I wanted to kiss him, to run my fingers through his hair, to forget Barnick's money. I thought I would scream if I stayed in our suite—close to Jack without touching him.

I was tired of swaggering about independence. I hadn't been born independent, and I told myself that I didn't want to achieve independence.

But what if it were thrust upon me?

What if Jack meant what he had said? What if we were parted forever by my acceptance of the money for the pearls?

The things one doesn't want to happen are always the things that do. The one particular person I least cared to see that day was Mrs. Herrod. So, of course, she turned up in her car to take us into the country for a few hours.

The Chinese say a husband and wife should live like guests in a house. Then they won't quarrel. Jack and I are playing the game today," I explained.

I had to account somehow for the formality she would surely detect between Jack and me.

## Adventures Of The Twins

Olive Roberts Barton

## The Lost Dimes

It was well named the Five and Ten Cent Store Mounts had been in about a dozen stores and there were dozens more to come. Already they had their pockets full and their arms and hands full, and they were still shopping. The more they saw the more they bought, for just as fast as they spent one dime another appeared to take its place.

They had quite forgotten about their errand, about the Princess Therma, the Diddyevers and the Krisknotts. Twelve Toes and the Fairy Queen. It really was a wonder that Nick managed to keep his hold on the magic records, which after all, was the real reason for their errand.

More and more stores appeared and the Twins wandered from one to the other like lost babes in the woods. Stores with white mice, stores with chicks, stores with gold fish, stores with everything, were there.

They'd be there yet, no doubt, and Princess Therma would have married no one and died an old maid had not the red feather pen in Nick's pocket played a trick. It was no use writing messages to the Twins. They wouldn't have paid any attention to them if he had. So when the next new dime appeared in Nick's pocket

"It was magic, wasn't it?" gasped the little girl. "Do you 'spose Twelve Toes did it all?"

"Of course," said Nick.

## MARRIAGE A LA MODE

The high price of shoes has often troubled many a father, but the Dalmatian parent is unconcerned, for he never has to buy shoes for his daughters.

The women there never wear shoes until after they are married, so the shoe bills fall to the husband. Even in well-to-do families this custom prevails.

## PARIS HATS

Paris is sending over some very smart hats lined under the brim with figured crepe and with scarfs wound about the crown reaching below the shoulder.

## IF YOU ARE WELLBRED

You remember that a woman does not remove her gloves or lighter wrap when making a formal call.

When a man and woman make calls together the man waits for the woman to give the signal for departure and leaves at once when she is ready.

Texan Writes  
1,554 Words  
On Post Card

TAYLOR

Lubbock, Tex.—As a hunter of wild turkeys Walter E. Taylor, an architect of Lubbock, claims the championship of the world.

Some time ago Donald Mayfield of Balld, Tex., wrote, on one side of a postcard, a letter of some 500 or 600 words. Taylor heard about it. Grabbing a pen and a postcard he wrote with the former on one side of the latter all he could think of about wild turkeys—he's an authority too—in 68 lines, averaging 23 words to the line, or a total of 1,554 words, throwing Mayfield's performance entirely into the shade.

It is not the kind of writing that has to be written and can only be read with a microscope. Taylor's eyes required no artificial aid though he is 63 years old and the card can be read with the naked eye without prejudice, however, to the admission that a magnifying glass helps.

## YOUR JOB

BY ELIZABETH ARNOLD  
Employment Expert

Before applying for a position get the name of the employment manager, head of the department, or the executive you want to see so that you can ask for him by name. If the man or woman you want to see is a very busy person it is always well to telephone or write and ask for an appointment. Be careful how you approach an executive. Big men are easy to talk to when you reach them but it often takes a great deal of patience and tact to deal with their of the boys and information clerks. It rarely pays to show impudence, no matter how long you are kept waiting. Never take a high-handed manner with the secretary of the man you want to see.

MODISH LENGTH  
The modish skirt now is separated from the floor, by about eight inches. Fashion authorities believe the distance will be less by fall.

BABY REINDER  
Baby reinder is a new fur mentioned for fall. It is particularly liked for making fur collars and cut-on motoring coats.

## TESTED RECIPE

## ASPARAGUS

(With Mock Hollandaise)  
By Bertha E. Shapleigh  
Cooking Authority for Columbia University

(This recipe has been tested and proved right in the laboratories of Columbia University.)

Asparagus stalks should be scraped and the tips cut about four inches from the top. The remainder of the stalks may be cut in small pieces and cooked 15 minutes in water to cover. Then add the tips, tied in bunches, or place tips in a steamer set over the boiling stalks. Cook until tender. The stalks and water remaining are to be saved for a cream of asparagus soup.

## HOLLANDAISE SAUCE

2 tablespoons butter, 2 tablespoons flour, 1/2 teaspoon salt, few grains of cayenne, 1 cup milk, 2 tablespoons lemon juice, yolks 2 eggs.

Melt butter, add flour when smooth, add the milk salt and cayenne—cook, stirring constantly, until the mixture is smooth and thick. Add lemon juice and yolks of eggs slightly beaten and mixed with a little of the hot sauce.

(Cut this out and paste it in your cook book.)

## PAJAMAS

Most attractive pajamas are made of orchid satin, with several rows of tucks at the bottom of the coat and trousers, under which is a row of heavily padded roses of the satin. The neck is cut with a deep "V."

## SILK HAND BAGS

Silk hand bags seem to be replacing those of leather. Blue and black more are popular materials. These are frequently mounted with silver and jeweled frames.

## ORNAMENTATION

Very little ornamentation is used on the new frocks, but when used it finds its way on shoulders, panels, at the waist line and on the sleeves.

Want Ad readers buy used furniture offered for sale in the Want Ads.

LEARN A WORD  
EVERY DAY

Today's word is RAPPORT.

It's pronounced—ra port with the accent on the second syllable.

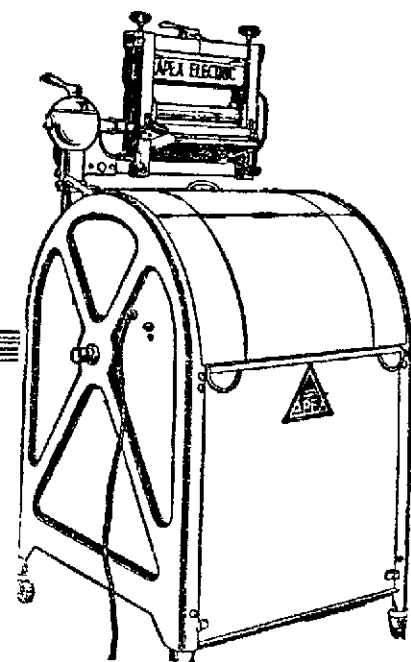

It means—an intimate or harmonious relation, an accord; a mutual and especially a private understanding. When used in reference to the hypnotic state it means a mental condition in which the subject is especially susceptible to the influence of a particular person or particular persons.

It was borrowed into English from the French "rapporter," meaning "to bring back, to refer," but comes originally from the Latin, "repor-

lare," a combination of the prefix "re," meaning "back," especially "back to an original or former state," and "portare," meaning "to bear or bring"—thus "to bring back."

It's used like this—"A close rapport exists between the present rulers of Russia and ultra radicals in other parts of the world," or "these scattered elements are in rapport," or, to follow the French style more strictly, "en rapport."

Dance at Al. Giesen's Pavilion, Stevensville, Wis., Friday, June 30. Gib Horst will play for you. Appleton-Green Bay bus will meet you at 8 P. M. at Pettibone's and bring you back for 50c.
